Notes to the Financial Statements

Six months ended April 30, 2020 and 2019

(Unaudited, in thousands of Canadian dollars)

Note 1. Nature of Operations

The Canadian Scholarship Trust Family Savings Plan (the "Plan") is a self-determined Education Savings Plan that was established on March 1, 1997. The objective of the Plan is to assist parents and others to save for the post-secondary education of children. The Plan is managed and distributed by C.S.T. Consultants Inc. ("C.S.T.C."), a wholly-owned subsidiary of the Canadian Scholarship Trust Foundation (the "Foundation"). The Plan's registered place of business is 1600-2235 Sheppard Avenue East, Toronto, Ontario, Canada.

Payments are made by a subscriber to an account maintained by the Plan's trustee on behalf of one or more beneficiaries. Payments of sales charges are made from the subscriber's initial contribution. The principal accumulated over the term of the subscriber's education savings plan agreement (the "Agreement") is returned in whole or in part at any time at the request of the subscriber. A beneficiary is deemed to be a qualified student upon receipt of evidence of enrolment in a qualifying educational program at an eligible institution. Education assistance payments ("EAPs") paid to a beneficiary from the Plan are determined by the subscriber and are paid from the income earned on the subscriber's principal.

There are a number of government grants that may be available to beneficiaries including the Canada Education Savings Grant Program ("CESG"), the Canada Learning Bond ("CLB"), the Quebec Education Savings Incentive ("QESI") and the British Columbia Training and Education Savings Grant ("BCTESG") (collectively, "Government Grants").

The Plan collects Government Grants, which are credited directly into subscribers' Agreements and invests these funds in accordance with the Plan's investment policies. The Government Grants, along with investment income earned thereon, are paid to qualified students.

Agreements are registered with appropriate government authorities if all required information is provided, and once registered are subject to the rules for Registered Education Savings Plans under the *Income Tax Act* (Canada). Current tax legislation provides that income credited on subscribers' principal is not taxable income of the subscriber unless withdrawn as an Accumulated Income Payment subject to certain eligibility requirements. The deposits are not deductible for income tax purposes and are not taxable when returned to the subscriber. Payments made to a beneficiary, including EAPs, Government Grants and investment income earned on Government Grants are taxable income of that beneficiary in the year that the payments are made.

Note 2. Significant Accounting Policies

(a) Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"). These financial statements were approved by the Board of Directors of the Foundation on July 15, 2020.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for financial instruments classified as "at fair value through profit or loss" ("FVTPL"), which are measured at fair value.

(c) Financial instruments

The Plan recognizes financial assets and financial liabilities when it becomes a party to a contract. Financial assets and financial liabilities, with the exception of those classified as FVTPL, are measured at fair value plus transaction costs on initial recognition. Financial assets and financial liabilities classified as FVTPL are measured at fair value on initial recognition and transaction costs are expensed when incurred. Investments, at fair value have been classified as FVTPL.

Measurement in subsequent periods depends on the classification of the financial instrument. The financial assets and financial liabilities of the Plan are classified as follows:

Classification
FVTPL ⁱ
Amortized Cost ⁱⁱ
Amortized Cost ⁱⁱ
Amortized Cost ⁱⁱ
Amortized Cost ⁱⁱⁱ
Amortized Cost ⁱⁱⁱ

Financial assets are designated as FVTPL when acquired principally for the purpose of trading. Financial assets classified as FVTPL are measured at fair value, with changes in unrealized gains and losses recognized on the Statements of Comprehensive Income.

Financial assets classified as Amortized Cost are non-derivative financial assets that are held to collect contractual cash flows and are not quoted in an active market. Subsequent to initial recognition, these financial assets are carried at amortized cost using the effective interest method.

ⁱⁱⁱ Financial liabilities classified as Amortized Cost are liabilities that are not derivative liabilities or classified as FVTPL. Subsequent to initial recognition, financial liabilities are carried at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial instrument and allocating interest over the relevant period. The effective interest rate is the rate that discounts estimated future cash flows (including all transaction costs and other premiums or discounts) through the expected life of the financial instrument to the net carrying amount on initial recognition.

Impairment for financial assets held at amortized cost is based on expected credit losses for the investment securities. Given the short-term nature and high credit quality of the Plan's financial assets classified as amortized cost, the Plan determined that the expected credit loss on these financial assets are not significant.

(d) Investment valuation

Investments, at fair value include the following types of securities: bonds, money market securities, equities, exchange-traded funds ("ETF"), and pooled funds.

Six months ended April 30, 2020 and 2019

(Unaudited, in thousands of Canadian dollars)

Note 2. Significant Accounting Policies (continued)

(d) Investment valuation (continued)

The fair value of fixed income securities that are not publicly traded is measured by using either the average bid price from multiple dealers, or by the present value of contractual cash flows, discounted at current market rates. Interest accrued at the reporting date is included in Accrued income and other receivables on the Statements of Financial Position.

The fair value of securities that are publicly traded in an active market is measured using bid prices at the reporting date.

Note 9 provides further guidance on fair value measurements.

(e) Investment transactions and income recognition

Investment transactions are accounted for on a trade-date basis. Interest represents the coupon interest received by the Plan accounted for on an accrual basis. The Plan does not amortize premiums paid or discounts received on the purchase of fixed income securities. Dividends and distributions are accrued as of the ex-dividend date and ex-distribution date, respectively. Realized gains (losses) on the sale of investments and Change in unrealized gains (losses) are calculated with reference to the average cost of the related investments and are recognized in the period that such gains (losses) occur.

(f) Subscribers' deposits and sales charges

Subscribers' deposits reflect amounts received from subscribers and do not include future amounts receivable on outstanding Agreements. A sales charge is required as part of the initial contribution under each Agreement. Sales charges collected during the reporting period are paid to C.S.T.C.

(g) Income taxes

The Plan is exempt from income taxes under Section 146.1 of the *Income Tax Act* (Canada).

(h) Cash and cash equivalents

Cash and cash equivalents include deposit balances with banks and securities with a purchase date to maturity of 90 days or less and includes term deposits, treasury bills and bankers acceptances.

(i) Foreign currency

The functional and presentation currency of the Plan is the Canadian Dollar.

To the extent applicable in any period, foreign currency purchases and sales of investments and foreign currency dividend and interest income are translated into Canadian dollars at the rate of exchange prevailing at the time of the transactions. Realized and unrealized foreign currency gains or losses on investments are included in the Statements of Comprehensive Income in Realized gains (losses) on sale of investments and Change in unrealized gains (losses), respectively.

(j) Critical accounting estimates and judgments

When preparing the financial statements, management makes estimates and judgments that affect the reported amounts recognized and disclosed in the financial statements. These estimates and judgments have a direct effect on the measurement of transactions and balances recognized in the financial statements. By their nature, these estimates and judgments are subject to measurement uncertainty and actual results could differ.

Note 3. Related Party Transactions

Related party transactions are measured at the exchange amount, which is the amount agreed between the parties.

(a) Distribution and Administration of the Plan

The Foundation, as the Plan sponsor, has appointed C.S.T.C. as the Scholarship Plan Dealer and Investment Fund Manager to distribute and administer the Plan. The distribution and administration agreements are renewable annually on November 1.

Annual administration fees are paid to the Foundation at 1% of the total amount of principal, Government Grants and income earned thereon.

During the six months ended April 30, 2020, \$2,256 was recognized as an expense for Administration and account maintenance fees (2019 – \$1,909). Administration and account maintenance fees included in Accounts payable and accrued liabilities at April 30, 2020 was \$217 (October 31, 2019, \$200).

Sales charges paid by subscribers from their initial contributions are paid to C.S.T.C. as compensation for the sale and distribution of savings plans.

During the six months ended April 30, 2020, \$1 was paid to C.S.T.C. from sales charges collected (2019 - \$5). Related amounts included in Accounts payable and accrued liabilities at April 30, 2020 was \$nil (October 31, 2019 - \$634).

(b) Fees paid for services of an Independent Review Committee

The Independent Review Committee ("IRC") provides independent review and oversight of conflicts of interest relating to the management of the Plans. For the six months ended April 30, 2020, the Plan recognized an expense of \$3 (2019 – \$3) for the services of the IRC. IRC fees included in Accounts payable and accrued liabilities at April 30, 2020 was \$nil (October 31, 2019 – \$nil).

(c) Fees paid to monitor and manage the portfolio managers Included in Portfolio management fees on the Statements of Comprehensive Income is \$23 (2019 – \$20) charged by C.S.T.C. for expenses incurred to monitor and manage the portfolio managers. Included in Accounts payable and accrued liabilities is \$4 owing from C.S.T.C. at April 30, 2020

(October 31, 2019 – \$nil) relating to these expenses.

Six months ended April 30, 2020 and 2019

(Unaudited, in thousands of Canadian dollars)

Note 4. Investment Holdings

The investment holdings are disclosed in Schedule I – Statement of Investment Portfolio and the related Appendix I to the schedule, which is explained below.

Government Grants are invested collectively in a separate fund with Government Grants of other RESP plans administered by C.S.T.C. Government Grant principal received and income earned thereon are separately tracked for each subscriber's Agreement. The portfolio holdings are allocated across all plans based on the proportion of principal and income attributable to Agreements within each plan (see Appendix I to Schedule I).

Note 5. Capital Risk Management

The Plan's capital consists of the components of the net assets attributable to subscribers and beneficiaries as per the Statements of Financial Position. The Plan has obligations to return subscriber contributions upon maturity or termination as well as pay EAPs of investment income, grants and income on grants. The Plan invests subscriber contributions and government grants received in appropriate investments in accordance with its stated investment objectives while maintaining sufficient liquidity to meet subscribers' obligations.

Note 6. Risks Associated with Financial Instruments

In the normal course of business, the Plan may be exposed to a variety of risks arising from financial instruments. The Plan's exposures to such risks are concentrated in its investment holdings and are related to market risk (which includes interest rate risk and other price risk), credit risk, liquidity risk and currency risk.

The Plan's risk management process includes monitoring compliance with the Plan's investment policy. The Plan manages the effects of these financial risks to the Plan portfolio performance by retaining and overseeing professional external investment managers. The investment managers regularly monitor the Plan's positions, market events, and manage the investment portfolio according to the investment policy and mandates.

(a) Market risk

i. Interest rate risk

Interest rate risk is the risk of a change in the fair value or cash flows of the Plan's investments in interest-bearing financial instruments as a result of fluctuations in market interest rates. There is an inverse relationship between changes in interest rates and changes in the fair value of bonds. This risk is actively managed using duration, yield curve analysis, sector and credit selection. There is reduced risk to interest rate changes for cash and cash equivalents due to their short-term nature. The Plan's holdings of debt instruments by maturity are as follows:

Debt Instruments by Maturity Date	% of Total Investment Fund		
	April 30, 2020	0ct 31, 2019	
Less than 1 year	2%	1%	
1-3 years	14%	12%	
3-5 years	16%	18%	
Greater than 5 years	37%	34%	
Total debt instruments	69%	65%	

As at April 30, 2020, if prevailing interest rates had increased by 1%, the fair value of the Total Investment Fund of \$408,615 (October 31, 2019 – \$395,887) as per the Schedule I – Statement of Investment Portfolio would have decreased by approximately \$15,290 (October 31, 2019 – \$14,750). If prevailing interest rates had decreased by 1%, the fair value of the Total Investment Fund would have increased by approximately \$17,790 (October 31, 2019 – \$17,120). This 1% change assumes a parallel shift in the yield curve with all other variables held constant. In practice, actual results may differ materially.

ii. Other price risk

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, other than those arising from interest rate risk. Factors specific to an individual investment, its issuer or other factors affecting all instruments traded in a market or market segment affect other price risk. The asset classes that are most impacted by other price risk are the equities and ETFs of the Plan and Government Grants asset pool, which represent 31% (October 31,2019 – 35%) of the Total Investment Fund amount as at April 30, 2020.

As at April 30, 2020, if equity and underlying indices prices had increased or decreased by 1%, with all other variables held constant, the fair value of the Total Investment Fund as per Schedule I – Statement of Investment Portfolio would have increased or decreased by approximately \$1,260 (October 31,2019 – \$1,370). In practice, actual results may differ materially.

(b) Credit risk

Credit risk refers to the ability of the issuer of debt securities to make interest payments and repay principal. The Plan's portfolio is mainly comprised of bonds issued or guaranteed by federal or provincial governments along with corporate debt instruments with a minimum approved credit rating as set by Canadian Securities Administrators. The Plan has a concentration of investments in government and government guaranteed bonds, which are considered to be high credit quality investments thereby moderating credit risk.

Six months ended April 30, 2020 and 2019

(Unaudited, in thousands of Canadian dollars)

Note 6. Risks Associated with Financial Instruments (continued)

(b) Credit risk (continued)

The Plan's credit risk exposure is summarized below:

	April 30, % of Total vestment	2020	October 31, 2019 % of Total			
Credit rating	Fund	Amount	Investment Fund	Amount		
AAA	4%	\$ 17,910	4%	\$ 16,808		
AA/AAH/AAL	37%	152,746	26%	103,174		
A/AH/AL	21%	84,690	31%	120,772		
BBB	5%	20,321	4%	14,731		
R-1	1%	4,414	0%	1,284		
Short-term unrated	1%	2,133	1%	2,062		
Total debt instrument	s 69%	\$282,214	66%	\$258,831		

The Dominion Bond Rating Service ("DBRS") was the primary source for obtaining credit ratings. Secondary sources used include Standard & Poor's Financial Services LLC and Moody's Investors Service, Inc.

(c) Liquidity risk

Liquidity risk is the risk that the Plan may not be able to meet its financial obligations as they come due. The Plan's exposure to liquidity risk is concentrated in principal repayments to subscribers and EAPs to beneficiaries. The Plan primarily invests in securities that are traded in active markets and can be readily sold. The Plan retains sufficient cash and cash equivalent positions to meet liquidity requirements by utilizing cash forecasting models that reflect the distribution of subscribers' deposits and accumulated income. All other financial liabilities are short term and due within one year.

(d) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Plan holds foreign ETFs which represent 27% (October 31,2019 – 28%) of the Total Investment Fund. The fair value of the Total Investment Fund would increase or decrease by approximately \$1,090 (October 31, 2019 – \$1,090) in response to a 1% depreciation or appreciation of the Canadian dollar currency exchange rate. In practice the actual change may differ materially.

Note 7. Subscribers' Deposits

The changes in Subscribers' deposits for the six-month period ended April 30, 2020 and 2019 are as follows:

	April 30, 2020 Ap	oril 30, 2019
Payments from subscribers	4,962	\$ 4,828
Inter-plan principal transfers	21,347	22,082
Return of principal	(17,939)	(17,617)
Net increase in Subscribers' deposits	8,370	9,293
Balance, Beginning of Period	187,513	175,067
Balance, End of Period	195,883	\$184,360

Note 8. Sales Charge Refund

As of January 20, 2020, if a subscribers' Agreement is transferred from CST Advantage Plan, the subscriber may be eligible for a partial refund of the CST Advantage Plan sales charges paid. The percentage of sales charges to be refund is dependent on the length of time the subscribers' Agreement was in CST Advantage Plan and ranges from 0% to 25% of the total sales charges paid. The sales charge refund ("SCR Entitlement") is paid to qualified beneficiaries proportionate to the amount of EAP withdrawn. The total amount refunded for the six months ended April 30, 2020 was \$79.

A funding valuation of the SCR Entitlements for the Plan will be completed based on assets and obligations as at October 31, 2020. As at April 30, 2020 no amount has been funded as the amount is not significant.

Note 9. Fair Value Measurements and Disclosure

Estimates of fair value used for measurement and disclosure are designed to approximate amounts that would be received to sell an asset, or paid to discharge a liability, in an orderly transaction between market participants.

The carrying values of other financial instruments such as Cash and cash equivalents, Accrued income and other receivables, Receivables for securities sold, Government grants receivable, Accounts payable and accrued liabilities and Payables for securities purchased approximate their fair values as these financial instruments are short term in nature.

The following table presents the level, in the fair value hierarchy, into which the Plan's financial instruments are categorized:

- i. Level 1 financial instruments are valued using quoted market prices.
- ii. Level 2 financial instruments are valued using directly or indirectly observable inputs.

Six months ended April 30, 2020 and 2019

(Unaudited, in thousands of Canadian dollars)

Note 9. Fair Value Measurements and **Disclosure (continued)**

iii. Level 3 financial instruments are valued using unobservable inputs (including the use of assumptions based on the best information available).

Assets Measured at Fair Value as of April 30, 2020									
	Level 1	Level 2	Level 3	Total					
Fixed income securities ETFs and Equity	\$ -	\$ 280,109	\$ -	\$280,109					
securities	126,401	-	-	126,401					
Total Investments, at fair value	\$126,401	\$280,109	\$ -	\$406,510					

Assets Measured at Fair Value as of October 31, 2019									
	Level 1	Level 2	Level 3	Total					
Fixed income securities ETFs and Equity	\$ -	\$ 227,023	\$ -	\$227,023					
securities	110,838	-	-	110,838					
Total Investments, at fair value	\$110,838	\$227,023	\$ -	\$337,861					

For the six months ended April 30, 2020 and year ended October 31, 2019, there were no transfers between Levels 1 or 2.
