# Notes to the Financial Statements

Six months ended April 30, 2013 and 2012 (Unaudited, in thousands of dollars)

## Note 1. Nature of Operations

The Canadian Scholarship Trust Plan II (“Plan II” or the “Plan”) is a Pooled Education Savings Plan that was established on December 1, 1979. Since August 1988, the Plan is no longer available for sale. The objective of Plan II is to assist parents and others to save for the post-secondary education of children. Plan II is managed by C.S.T. Consultants Inc. (“C.S.T.C.”), a wholly-owned subsidiary of the Canadian Scholarship Trust Foundation (the “Foundation”). The Foundation was created to encourage and promote post-secondary education by making education savings plans available to Canadian residents.

Payments are made by a subscriber to an account maintained by the depository trustee on behalf of a beneficiary. Deductions of Sales Charges (previously referred to as enrolment fees) and account maintenance fees were made from the subscriber’s contributions. The principal accumulated over the term of the subscriber’s education savings plan agreement (“Agreement”) is returned to the subscriber when:

- i. the Agreement matures and the beneficiary is a qualified student eligible to receive the first education assistance payment,
- ii. the Agreement matures and the beneficiary is not yet a qualified student, in which case the beneficiary will forfeit all Government grants (as defined below), or
- iii. the Agreement is terminated.

The investment income earned on the subscribers’ principal balance is transferred to the scholarship pool when the Agreement matures and is used to provide education assistance payments (“EAPs”) to qualified students. A beneficiary is deemed to be a qualified student upon receipt by the Foundation of evidence of enrolment in a qualifying educational program at an eligible institution.

The Canada Education Savings Grant Program (“CESG”) is a grant from the federal Government whereby Registered Education Savings Plans (“RESPs”) receive grant amounts dependent on family income.

Plan II receives the CESG (“Government grants”), which are paid directly into a beneficiary’s RESP and invests these funds in accordance with the Plan’s investment policies. The Government grants, along with investment income earned thereon, are paid to qualified students.

Agreements are registered with appropriate government authorities if all required information is provided, and once registered are subject to the rules for RESPs under the *Income Tax Act* (Canada). The current tax legislation provides that income credited on subscribers’ principal is not taxable income of the subscriber, unless withdrawn as an Accumulated Income Payment subject to certain eligibility requirements being met. The deposits are not deductible for income tax purposes and are not taxable when returned to the subscriber. Payments made to a qualified student, including EAPs, grants and investment income earned on grants will constitute taxable income of that student in the year that the payments are made.

## Note 2. Significant Accounting Policies

### (a) Generally accepted accounting principles

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (“Canadian GAAP”).

### (b) Future accounting standards

In February 2008, the Canadian Accounting Standards Board (“AcSB”) confirmed that the use of International Financial Reporting Standards (“IFRS”) will be required for publicly accountable enterprises. In December 2011, the AcSB amended the deadline for adoption of IFRS by certain qualifying investment funds to extend the adoption date to years beginning on or after January 1, 2014. Therefore, IFRS will replace Canadian GAAP and become effective for the Plan’s interim and annual financial statements relating to the fiscal year ending October 31, 2015. Management is in the process of developing a transition plan, which will include identifying differences between the Plan’s current accounting policies and those it expects to apply under IFRS, as well as any accounting policy and implementation decisions and their resulting impact, if any, on the financial statements of the Plan.

### (c) Investment valuation

Investments, at fair value include the following types of securities: bonds and money market securities.

Bonds and money market securities are valued using bid prices at period end. In the event that quoted market prices are not available, the fair values presented are estimated using present value or other valuation techniques.

Note 8 provides further guidance on the fair value measurements.

### (d) Investment transactions and income recognition

Investment transactions are accounted for on a trade-date basis. Interest income on investments is recognized using the effective interest method. Realized gains (losses) on the sale of investments and change in unrealized gains (losses) on investments are calculated with reference to the average cost of the related investments and are recognized in the period that such gains (losses) occur.

### (e) Subscribers’ deposits and Account maintenance fees

Subscribers’ deposits reflect amounts received from subscribers net of sales charges and account maintenance fees. Account maintenance fees are paid annually to the Foundation from subscribers’ deposits and are accrued throughout the year.

### (f) Income taxes

Plan II is exempt from income taxes under Section 146.1 of the *Income Tax Act* (Canada)

### (g) Cash and cash equivalents

Cash and cash equivalents include short-term investments with a purchase date to maturity of 90 days or less.

### (h) Use of estimates

In preparing the financial statements, management is required to use estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and

# Notes to the Financial Statements (continued)

## Note 2. Significant Accounting Policies (continued)

### (h) Use of estimates (continued)

liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the current estimates. Significant estimates included in these financial statements relate to Accounts payable, accrued liabilities and unclaimed subscribers' funds.

## Note 3. Related Party Transactions

### (a) Administration of Plan II

The Foundation, as the Plan sponsor, has appointed C.S.T.C. as the Investment Fund Manager to administer Plan II. Account maintenance fees and administration fees (comprising Plan administration and processing fees and Financial reporting expenses) are paid to the Foundation. Administration fees are annual fees of ½ of 1% of the total amount of principal, Government grants and income earned thereon.

### (b) Other Related Party Transactions

The Foundation retains the services of Greystone Managed Investments Inc., an investment management firm and wholly-owned subsidiary of Greystone Capital Management Inc. ("Greystone"). As at April 30, 2013, one director of the Foundation was a member of the Board of Directors of Greystone. This director does not have any beneficial ownership of Greystone equity. The director does not participate in any of the Foundation's Board deliberations concerning the investment management of the Plan and does not vote on any resolutions recommended by the Investment Committee of the Foundation.

Portfolio management fees in the Statements of Investment Operations include fees paid or payable to Greystone, and were less than \$1 for the six-month periods ended April 30, 2013 and April 30, 2012. Balances included in Accounts payable, accrued liabilities and unclaimed subscribers' funds in the Statement of Net Assets Available for Education Assistance Payments owing to Greystone as at April 30, 2013 and October 31, 2012, were less than \$1.

All related party transactions are in the normal course of business and are measured at the exchange amount.

## Note 4. Investment Holdings

The investment holdings are disclosed in Schedule I – Statement of Investment Portfolio and the related Appendices I and II to the schedule, which are explained below.

The Government grants received from Human Resources and Skills Development Canada are collectively invested together with other C.S.T.C. administered plans. The principal and income received are separately tracked for each subscriber's Agreement. The portfolio holdings are allocated across all plans based on the proportion of principal and income attributable to Agreements within each plan (see Appendix I to Schedule I).

Upon maturity of each Agreement, the investment income accumulated to date attributable to that Agreement is transferred to the Canadian Scholarship Trust Scholarship Pool (the "Pool"), a shared investment pool with Founders' Plan, another plan administered by C.S.T.C. (see Appendix II to Schedule I). From a subscriber's perspective, the income that is transferred is tracked by plan and by year of eligibility. The portfolio holdings of the Pool are allocated based on the Plan's proportionate share of income remaining in the Pool. Income earned from the Pool is credited to the General Fund (see Note 7).

## Note 5. Risks Associated with Financial Instruments

In the normal course of business the Plan may be exposed to a variety of risks arising from financial instruments. The Plan's exposures to such risks are concentrated in its investment holdings and are related to interest rate risk, credit risk, liquidity risk and currency risk.

The Plan's risk management process includes monitoring compliance with the Plan's investment policy. The Plan manages the effects of these financial risks to the Plan portfolio performance by retaining and overseeing professional external investment managers. The investment managers regularly monitor the Plan's positions and market events, and manage the investment portfolio within the constraints of the investment policy.

### (a) Market risk

#### i. Interest rate risk

Interest rate risk is the risk of a decrease in the Plan's yield on interest-bearing investments as a result of fluctuations in market interest rates. There is an inverse relationship between changes in interest rates and changes in the fair value of bonds. This risk is actively managed using duration, yield curve analysis, sector and credit selection. There is reduced risk to interest rate changes for cash and cash equivalents due to their short-term nature.

The Plan's holding of debt instruments by maturity is as follows:

Debt Instruments by Maturity Date	% of Total Investment Fund	
	April 30, 2013	October 31, 2012
Less than 1 year (including short-term investments)	76%	77%
1-3 years	11%	9%
3-5 years	6%	7%
Greater than 5 years	7%	7%
<b>Total debt instruments</b>	<b>100%</b>	<b>100%</b>

As at April 30, 2013, if prevailing interest rates had increased by 1%, the Total Investment Fund amount of \$5,953 (October 31, 2012 – \$15,998) as per Schedule I – Statement of Investment Portfolio, would have decreased by \$41 (October 31, 2012 – \$102). If prevailing interest rates had decreased by 1% the Total Investment Fund would have increased by \$53 (October 31, 2012 – \$122). This 1% change assumes a parallel shift in the yield curve with all

# Notes to the Financial Statements (continued)

Six months ended April 30, 2013 and 2012 (Unaudited, in thousands of dollars)

## Note 5. Risks Associated with Financial Instruments (continued)

### (a) Market risk (continued)

#### i. Interest rate risk (continued)

other variables held constant. In practice, the actual trading results may differ materially.

#### ii. Other price risk

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, other than those arising from interest rate risk. Factors specific to an individual investment, its issuer or all factors affecting all instruments traded in a market or market segment affect other price risk. The Plan is not exposed to other price risk as it holds only bonds and money market securities.

### (b) Credit risk

Credit risk refers to the ability of the issuer of debt securities to make interest payments and repay principal. The Plan's portfolio is comprised of bonds issued or guaranteed by federal or provincial governments along with corporate debt instruments with a minimum approved credit rating as set by the Canadian Securities Administrators, currently A-low. Plan II has a concentration of investments in government and government guaranteed bonds, which are considered to be high credit quality investments thereby moderating credit risk.

The Plan's credit risk exposure is listed below:

Credit rating	Apr 30, 2013		Oct 31, 2012	
	% of Total Investment Fund	Amount (in thousands)	% of Total Investment Fund	Amount (in thousands)
AAA	21%	\$ 1,239	16%	\$ 2,544
AA/AH/AAL	2%	126	3%	455
A/AH/AL	7%	422	6%	1,048
R-1	69%	4,088	75%	12,117
Short-term unrated	1%	78	0%	(166)
<b>Total Investment Fund</b>	<b>100%</b>	<b>\$ 5,953</b>	<b>100%</b>	<b>\$ 15,998</b>

The Dominion Bond Rating Service ("DBRS") was the primary source for obtaining credit ratings. Secondary sources used include Standard & Poor's Financial Services LLC and Moody's Investors Service, Inc.

### (c) Liquidity risk

Liquidity risk is the risk that the Plan may not be able to meet its obligations on time. The Plan's exposure to liquidity risk is concentrated in principal repayments to subscribers and EAPs to beneficiaries. The Plan primarily invests in securities that are traded in the active markets and can be readily sold. The Plan retains sufficient cash and cash equivalents positions to meet liquidity requirements by utilizing cash forecasting models that reflect the maturity distribution of Subscribers' deposits and accumulated income. All other financial liabilities are short-term and due within one year.

### (d) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Plan is not exposed to currency risk as it holds only Canadian securities.

## Note 6. Subscribers' Deposits

The changes in Subscriber's deposits for the six-month period ended April 30, 2013 and 2012 are as follows:

	Apr 30, 2013	Apr 30, 2012
Inter-plan principal transfers	\$ 0	\$ (34)
Return of principal	(67)	(198)
Decrease in Subscribers' deposits	(67)	(232)
<b>Balance, Beginning of Period</b>	<b>88</b>	<b>342</b>
<b>Balance, End of Period</b>	<b>\$ 21</b>	<b>\$ 110</b>

## Note 7. General Fund and Donations from the Foundation

The Canadian Scholarship Trust (the "Canadian Trust") is a legal trust registered with Canada Revenue Agency as an Education Savings Plan. Included in the Canadian Trust are Plan I, Plan II and Founders' Plan (the "Plans"). The General Fund is a separate account within the Canadian Trust and derives its income from the following sources:

- interest earned on Subscribers' deposits and Accumulated interest from the date of maturity to the date the funds are paid to qualified students as EAPs;
- interest earned on the interest forfeited when a subscriber's plan is terminated prior to maturity;
- income not collected by beneficiaries before the expiry of the benefit period; and
- unclaimed principal and income payments.

According to the trust indenture, the General Fund may be used to subsidize EAPs for qualified students to any of the active Plans within the Canadian Trust.

Donations from the Foundation represent a discretionary pool of funds shared between Plan II and Founders' Plan. These funds are used to supplement Education Assistance Payments when the General Fund is depleted. The amount is allocated annually between the Plans according to the payout forecast in each of the plans.

## Note 8. Fair Value of Financial Instruments

Investments, at fair value, Cash and cash equivalents, and Short-term investments are carried at fair value. The carrying values of other financial instruments such as Accrued interest and other receivables, Receivables for securities sold, Government grants payable, Accounts payable, accrued liabilities and unclaimed subscribers' funds, Payables for securities purchased and Subscribers' deposits approximate their fair values as these financial instruments are short term in nature.

# Notes to the Financial Statements (continued)

Six months ended April 30, 2013 and 2012 (Unaudited, in thousands of dollars)

## Note 8. Fair Value of Financial Instruments (continued)

Fair value represents the amount at which a financial instrument could be exchanged in an arm's-length transaction between willing parties under no compulsion to act and is best evidenced by a quoted bid price in an active market, if one exists.

The following table presents the Plan's financial instruments carried at fair value in the statement of net assets available for education assistance payments classified by the fair value hierarchy set out in CICA Handbook Section 3862 *Financial Instruments – Disclosures*:

- i. "Level 1" financial instruments are valued using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- ii. "Level 2" financial instruments are valued using observable inputs other than quoted prices included in Level 1.
- iii. "Level 3" financial instruments are valued using unobservable inputs for the asset or liability.

### Assets Measured at Fair Value as of April 30, 2013

	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 1,042	\$ -	\$ -	\$ 1,042
Short-term Investments	-	3,118	-	3,118
Fixed Income Securities	-	1,793	-	1,793
<b>Total Investment Fund</b>	<b>\$ 1,042</b>	<b>\$ 4,911</b>	<b>\$ -</b>	<b>\$ 5,953</b>

### Assets Measured at Fair Value as of October 31, 2012

	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 5,955	\$ -	\$ -	\$ 5,955
Short-term Investments	-	5,991	-	5,991
Fixed Income Securities	-	4,052	-	4,052
<b>Total Investment Fund</b>	<b>\$ 5,955</b>	<b>\$ 10,043</b>	<b>\$ -</b>	<b>\$ 15,998</b>

For the six-month period ended April 30, 2013 and year ended October 31, 2012 there were no transfers between Levels 1, 2 or 3.
