CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Certain portions of the Management Report of Fund Performance, including but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Plan, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Plan action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Plan and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Plan. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Management Report of Fund Performance

Introduction

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Canadian Scholarship Trust Family Savings Plan (“the Plan”). A copy of the annual financial statements can be obtained on request, and at no cost, by visiting our website at www.cst.org, SEDAR at www.sedar.com, by calling our customer service team at 1-877-333-7377 or by writing to us by mail at 2235 Sheppard Avenue East, Suite 1600, Toronto, Ontario M2J 5B8.

The Canadian Scholarship Trust Foundation, as the Plan sponsor, and C.S.T. Consultants Inc., as the Investment Fund Manager, view corporate governance and compliance as critical to overall corporate performance and long-term investment returns, and as such we review and support the proxy voting guidelines established by our investment managers. Each investment manager’s proxy voting policy is available on request through our customer service area or by contacting us at cstplan@cst.org.

Investment Objective and Strategy

The Plan’s investment objectives are to protect Subscribers’ principal (net “Contributions” or “Principal”), and to deliver a reasonable positive return on investments over a long-term investment horizon within prudent risk tolerances.

The Plan invests Principal and any Government Grants received in debt securities of Canadian federal and provincial governments. Income earned on Principal and Government Grants (“Income”) is invested in debt securities issued by corporations, including debt securities rated BBB and above. Income assets have also been invested in Canadian exchange traded equity securities including certain exchange traded funds (“ETFs”).

The Plan’s debt securities are managed by TD Asset Management Inc. The assets are allocated among different market sectors and different maturity segments at our portfolio managers’ discretion, subject to our investment policies and mandates. The portfolio manager actively manages the Plan, focusing on strategies where value can be added on a sustainable basis, while meeting the short to medium-term cash flow needs of the Plan. These fixed income strategies include sector allocation, duration management, credit research and yield curve positioning.

The Plan’s ETFs are managed by BlackRock Asset Management Canada Limited. These assets are allocated to ETFs traded on Canadian exchanges that replicate the performance of broad market indices of equity securities of Canadian companies, at our portfolio managers’ discretion, subject to our investment policies and mandates.

Risk

The risks associated with investing in the Plan remain as described in the prospectus. There were no material changes to the Plan during the financial year that affected the overall level of risk associated with an investment in the Plan.

Results of Operation

2016 Plan Performance

For 2016, the Plan’s rate of return, net of fees, was 4.5% compared to the investment policy benchmark (“Benchmark”) return of 5.6% and the FTSE TMX Canada Short Term Government Bond Index return of 1.4% (“Broad-based Index”). The Plan’s return is after the deduction of fees and expenses of 1.2%, while the Benchmark and

Broad-based Index returns do not include any costs of investing such as fees, expenses and commissions.

In comparison to the Benchmark, the Plan’s fixed income allocation generated a modest positive impact to relative returns as an overweight to both provincial and corporate bonds added value as yields fell and spreads narrowed throughout the year.

In comparison to the Broad-based Index, the Plan’s allocation to Canadian equity, and both corporate and longer dated government bonds contributed to positive gains. Overall, the Plan significantly outperformed relative to the Broad-based Index.

Economic Review

Global economic growth was positive, but in most cases below expectations in 2016. This can be attributed to a number of factors including natural disasters and the uncertainty surrounding “Brexit”. In response, central bankers have kept interest rates low in an attempt to boost personal consumption and business spending. Despite initial encouraging results, persistent risks were sufficient to have kept growth in check. In spite of increased volatility, equity markets in most developed economies have posted solid gains in 2016 following a pullback from late last year.

In the U.S., economic data has been positive despite some mixed employment growth numbers. The overall economy has continued to grow but at a pace below expectations. Wage growth and housing starts were positive and indicate stronger underlying fundamentals moving forward. The Federal Reserve Board increased the federal funds rate to 0.5% late last year but has since left it unchanged with increases expected in 2017.

The Canadian economy experienced a setback in the second quarter, largely as a result of falling oil prices and the forest fires in the Fort McMurray area which temporarily halted production in the Alberta oil patch. The decline in economic growth halted what had been three consecutive quarters of positive, albeit modest, economic growth. The Bank of Canada held the benchmark interest rate at 0.5% and is not expected to make changes in the short term. Oil prices dropped below \$30 per barrel (WTI) in February but rose modestly through October with prices approaching \$50 per barrel. Both core and total inflation remained within the Bank of Canada’s target range of 1% – 3% despite slightly trending downward towards the end of July.

The Canadian bond market provided stable, positive returns throughout the year as the central bank has not changed the key lending rate since July 2015. Provincial bonds outperformed both federal bonds and the broad market as spreads narrowed. The yield curve flattened with most of the change coming from the longer end as longer dated issues outperformed relative to the broad market. Corporate spreads spiked in the second quarter before settling back towards previous yield levels and providing returns ahead of government bonds.

The S&P/TSX Composite Capped Index (a broad index of Canadian stocks) grew by 12.7% over the year. Following a prolonged decline in commodities last year, the heavily weighted energy and materials sectors rebounded significantly and drove the index into double digit territory. The increase was largely broad based with all sectors in positive territory with the exception of Health Care which was driven by company specific news.

At October 31, 2016, 60.8% of the Plan's Total Portfolio Assets were invested in Short and Mid Term Government Bonds, 22.9% Corporate Bonds, 8.5% in Cash and Money Market Securities and 7.8% in ETFs.

Recent Developments and Other Information

On November 8th, American voters elected Donald Trump as the 45th President of the United States. Capital markets experienced increased volatility in the immediate aftermath but stabilized in the sessions that followed. Bond yields have moved higher in both Canada and the U.S. in the week following the election.

We are confident our investment strategy and conservative management approach will continue to provide value over the long term horizon of the Plan. Our goal, as always, is to provide safety of principal and deliver a reasonable return within our investment policy guidelines and risk tolerances for our subscribers and beneficiaries.

Future Accounting Standards

In July 2014, the International Accounting Standards Board issued IFRS 9, Financial Instruments, to replace International Accounting Standard 39, Financial Instruments – Recognition and Measurement (“IAS 39”). IFRS 9 introduces new requirements for the classification and measurement of financial assets and will be effective for the Plan's financial statements for the year ending October 31, 2019.

Financial and Operating Highlights (with comparative figures)

The following table is intended to help you understand the key financial results for the past five fiscal years ending October 31 for the Plan, which includes assets and income allocated from Government Grants. This information is derived from the Plan's audited annual financial statements.

(\$ thousands)	2016 ¹	2015 ¹	2014 ¹	2013 ²	2012 ²
Statements of Financial Position					
Total Assets	\$292,791	\$263,803	\$241,052	\$222,055	\$196,915

2 Based on financial statements in accordance with Canadian GAAP

Management Fees

Administration Fees

An administration fee of \$2,989 thousand (2015 – \$2,749 thousand) comprising Plan administration and processing fees and financial reporting expenses was paid to the Canadian Scholarship Trust Foundation (“the Foundation”), the sponsor and administrator of the Plan, in accordance with subscribers’ Education Savings Plan Agreements. The administration of the Plan includes processing and call centre services related to new agreements, Government grants, plan modifications, terminations, maturities and Education Assistance Payments (“EAPs”). The annual administration fee is calculated as 1.0% of the total amount of net Contributions, Government Grants and income earned on these amounts, subject to applicable taxes, and is paid monthly.

The Foundation has delegated certain administrative and distribution functions to its wholly-owned subsidiary, C.S.T. Consultants Inc., which is registered as the Plan’s Investment Fund Manager in Ontario, Quebec, Newfoundland and Labrador, and Scholarship Plan Dealer under securities legislation of each of the provinces and territories of Canada in which it operates to sell scholarship plans. C.S.T. Consultants Inc. is the exclusive distributor of the Canadian Scholarship Trust Plans.

In exchange for its administrative services, C.S.T. Consultants Inc. receives an amount equal to the administration costs incurred plus a percentage of such costs from the Foundation. The administration services agreement is renewable on an annual basis.

Portfolio Management Fees

The Plan’s annual investment management fee was 0.15%, including taxes, (2015 – 0.13%) of the average market value of assets based on the Investment Management Agreements with portfolio managers. The portfolio managers provide investment advisory and discretionary managed account services with respect to purchasing, selling, and dealing in securities.

Trustee and Custodian Fees

The Plan pays trustee and custodian fees to RBC Investor Services Trust to settle all investment trades and disburse fees, EAPs and other amounts in accordance with the terms of the Plan Agreement. For 2016 these fees charged to the Plan amounted to \$48 thousand (2015 – \$43 thousand) and were 0.02% including taxes (2015 – 0.02%) of the average market value of assets.

Summary of Plan Investment Portfolio

The Plan’s Total Portfolio Assets are comprised of the Principal and Income for all education savings plan agreements that have not been paid out to beneficiaries and/or withdrawn by subscribers.

Government Grant assets and related investment income are specific to each beneficiary, but are invested together with funds from other Plans administered by the Foundation. Any payments to beneficiaries from Government Grant assets are treated as separate payments and not included in EAP values paid out.

The Plan’s Total Portfolio Assets as presented and as defined in this report, reflects only the Principal and Income assets. The Plan’s Total Portfolio Assets do not include the allocation of assets from the Government Grant asset pool that are attributable to this Plan.

The following chart illustrates the Plan’s Total Portfolio Assets by investment categories.

Asset Mix as at October 31, 2016

The following table details the top 25 long positions in the Total Portfolio Assets of the Plan. The Plan is prohibited from holding short positions in securities.

Issuer	Rate	Maturity Date	Fair Value (\$ 000's)	% of Plan Portfolio Assets

Top 25 long positions as a percentage of Total Portfolio Assets of the Plan **68.2%**

Past Performance

The returns presented in the following chart and the annual compound returns table are based on the investment performance of the Plan’s Total Portfolio Assets only and do not reflect the investment performance of assets from the Government Grants. Investment returns have been calculated using market values and time-weighted cash flows during the periods. Total expenses incurred by the Plan, including administration, portfolio management, custody and trustee fees, and Independent Review Committee expenses have been deducted and only net returns are displayed in each period. Past returns of the Plan do not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart illustrates the annual performance in each of the past ten years to October 31, 2016 of the Plan’s Total portfolio Assets. The chart illustrates in percentage terms how much an investment in the Plan’s Total Portfolio Assets, made on the first day

of each financial year, would have increased or decreased by the last day of each financial year:

Annual Compound Returns

The Plan's Benchmark currently comprises the following specified indices in the weights and for the periods of time indicated:

Index	Prior to: July 1, 2011	To: July 31, 2014	Current: Aug 1, 2014
FTSE TMX Canada All Gov't Bond Index			62.0%
FTSE TMX Canada Short Term Corporate Bond Index		6.0%	
FTSE TMX Canada Short Term Gov't Bond Index	70.0%	64.0%	
FTSE TMX Canada All Corporate Bond Index			21.0%
FTSE TMX Canada 91-Day Treasury Bill Index	30.0%	30.0%	10.0%
S&P/TSX Capped Composite Index			7.0%

The FTSE TMX Canada All Government Bond Index is a broad measure of Canadian investment grade fixed income securities, issued by the Government of Canada, including Crown Corporations and provincial governments, with maturities greater than 1 year.

The FTSE TMX Canada All Corporate Bond Index is a broad measure of Canadian investment grade fixed income securities issued by corporations, with maturities greater than one year.

The FTSE TMX Canada 91-Day Treasury Bill Index is based upon the average daily yield of 91-Day Treasury Bills.

The S&P/TSX Capped Composite Index reflects price movements of selected securities listed on the Toronto Stock Exchange and weighted by market capitalization, with a capped weight of 10% on all of the constituents.

The FTSE TMX Canada Short Term Government Bond Index is a broad measure of Canadian investment grade fixed income securities, issued by the Government of Canada, including Crown Corporations and provincial governments, with maturities between 1 and 5 years.

The FTSE TMX Canada Short Term Corporate Bond Index is a broad measure of Canadian investment grade fixed income securities issued by corporations, with maturities between 1 and 5 years.

The following table illustrates the annual compound returns of the Plan's Total Portfolio for the periods shown ending on October 31, 2016.

	Period			
	1 Yr	3 Yr	5 Yr	10 Yr
Net Plan Return*	4.5	2.6	1.7	2.1
Benchmark	5.6	3.7	2.8	3.4
Broad-based Index: FTSE TMX				
Canada Short Term Government Bond Index	1.4	2.1	1.9	3.4

Note:

* The Plan returns are after the deduction of fees and expenses, while the Benchmarks and Broad-based Index returns do not include any costs of investing such as fees, expenses and commissions. The Plan's fees and expenses were 1.2% for the one-year and ten-year returns, and 1.3% for all other periods.

For commentary on the market and/or information regarding the relative performance of the Plan compared to its Broad-based Index and Benchmark, see the Results of Operations section of this report.

Management's Responsibility for Financial Reporting

The accompanying financial statements of the Canadian Scholarship Trust Family Savings Plan (the "Plan") are prepared by management and are approved by the Board of Directors of Canadian Scholarship Trust Foundation (the "Foundation"). Management is responsible for the information and representations contained in these financial statements. The Board of Directors is responsible for reviewing and approving the financial statements and overseeing management's performance of its financial reporting responsibilities.

The Foundation, through C.S.T. Consultants Inc., a wholly-owned subsidiary which administers the Plan, maintains appropriate processes to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments. The significant accounting policies, which management believes are appropriate for the Plan, are described in Note 2 to the financial statements.

Deloitte LLP is the external auditor of the Plan. It has audited the financial statements in accordance with Canadian generally accepted auditing standards to enable it to express to the Board of Directors and Members of the Foundation its opinion on the financial statements. Its report is set out below.

Sherry J. MacDonald, CPA, CA

Independent Auditor's Report

To the Board of Directors and Members of the Canadian Scholarship Trust Foundation

We have audited the accompanying financial statements of the Canadian Scholarship Trust Family Savings Plan, which comprise the statements of financial position as at October 31, 2016 and 2015, and the statements of comprehensive income, statements of changes in net assets attributable to subscribers and beneficiaries and statements of cash flows for the years ended October 31, 2016 and October 31, 2015, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Canadian Scholarship Trust Family Savings Plan as at October 31, 2016 and 2015 and the results of its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Schedule II – Subscribers’ Deposits and Accumulated Income

As at October 31, 2016 and 2015 (in thousands of Canadian dollars)

The following table provides a summary of Family Savings Plan agreements, Subscribers’ Deposits and Accumulated Income:

Opening Agreements	Inflow Agreements	Outflow Agreements	Closing Agreements	Subscribers’ Deposits	Accumulated Income
54,695	10,138	6,847	57,986	\$152,813	\$52,382

The changes in Subscribers’ deposits are as follows:

	2016	2015
Net payments from subscribers ¹	\$ 8,314	\$ 7,142
Inter-plan principal transfers	43,183	42,676
Return of principal	(40,419)	(38,505)
Net increase in Subscribers’ deposits	11,078	11,313
Balance, Beginning of Year	141,735	130,422
Balance, End of Year	\$152,813	\$141,735

¹ Net of Sales charges collected of \$9 (2015 – \$18)

Notes to the Financial Statements

October 31, 2016 and 2015 (in thousands of Canadian dollars)

Note 1. Nature of Operations

The Canadian Scholarship Trust Family Savings Plan (the “Plan”) is a self-determined Education Savings Plan that was established on March 1, 1997. The objective of the Plan is to assist parents and others to save for the post-secondary education of children. The Plan is managed and distributed by C.S.T. Consultants Inc. (“C.S.T.C.”), a wholly-owned subsidiary of the Canadian Scholarship Trust Foundation (the “Foundation”). The Plan’s registered place of business is 1600-2235 Sheppard Avenue East, Toronto, Ontario, Canada.

Payments are made by a subscriber to an account maintained by the Plan’s trustee on behalf of one or more beneficiaries. Payments of sales charges are made from the subscriber’s initial contribution. The principal accumulated over the term of the subscriber’s education savings plan agreement (the “Agreement”) is returned in whole or in part at any time at the request of the subscriber. A beneficiary is deemed to be a qualified student upon receipt by the Foundation of evidence of enrolment in a qualifying educational program at an eligible institution. Education assistance payments (“EAPs”) paid to a beneficiary from the Plan are determined by the subscriber and are paid from the income earned on the subscriber’s principal.

There are a number of government grants that may be available to beneficiaries including the Canada Education Savings Grant Program (“CESG”), the Canada Learning Bond (“CLB”), the Alberta Centennial Education Savings Grant (“ACES”), the Quebec Education Savings Incentive (“QESI”), the Saskatchewan Advantage Grant for Education Savings (“SAGES”) and the British Columbia Training and Education Savings Grant (“BCTESG”) (collectively, “Government Grants”). The Alberta government announced that no new grants will be made under the ACES program after July 31, 2015.

The Plan collects Government Grants, which are credited directly into subscribers’ Agreements and invests these funds in accordance with the Plan’s investment policies. The Government Grants, along with investment income earned thereon, are paid to qualified students.

Agreements are registered with appropriate government authorities if all required information is provided, and once registered are subject to the rules for Registered Education Savings Plans under the *Income Tax Act* (Canada). The current tax legislation provides that income credited on subscribers’ principal is not taxable income of the subscriber unless withdrawn as an Accumulated Income Payment subject to certain eligibility requirements. The deposits are not deductible for income tax purposes and are not taxable when returned to the subscriber. Payments made to a beneficiary, including EAPs, Government Grants and investment income earned on Government Grants will constitute taxable income of that beneficiary in the year that the payments are made.

Note 2. Significant Accounting Policies

(a) Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”).

These financial statements were approved by the Board of Directors of the Foundation on December 20, 2016.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for financial instruments classified as “at fair value through profit or loss” (“FVTPL”), which are measured at fair value.

(c) Future accounting standard

The following new accounting standard has been issued by the International Accounting Standards Board (“IASB”). This new standard is not yet effective and the Plan has not completed its assessment of the impact on its financial statements.

IFRS 9 Financial Instruments (“IFRS 9”)

In July 2014, the IASB finalized the reform of financial instruments accounting and issued IFRS 9 (as revised in 2014), which contains the requirements for the classification and measurement of financial assets and financial liabilities, impairment methodology, and general hedge accounting. IFRS 9 (as revised in 2014) will supersede IAS 39 Financial Instruments: Recognition and Measurement (“IAS 39”). IFRS 9 will be effective for the Plan’s financial statements during its fiscal 2019 year.

(d) Financial instruments

The Plan recognizes financial assets and financial liabilities when it becomes a party to a contract. Financial assets and financial liabilities, with the exception of those classified as FVTPL, are measured at fair value plus transaction costs on initial recognition. Financial assets and financial liabilities classified as FVTPL are measured at fair value on initial recognition and transaction costs are expensed when incurred. Investments, at fair value have been designated as FVTPL.

Measurement in subsequent periods depends on the classification of the financial instrument. The financial assets and financial liabilities of the Plan are classified as follows:

Financial asset or financial liability	Classification
Investments, at fair value	FVTPL ⁱ
Cash and cash equivalents	Loans and receivables ⁱⁱ
Accrued interest and other receivables	Loans and receivables ⁱⁱ
Receivables for securities sold	Loans and receivables ⁱⁱ
Accounts payable, accrued liabilities and unclaimed subscriber funds	Other financial liabilities ⁱⁱⁱ
Payables for securities purchased	Other financial liabilities ⁱⁱⁱ

ⁱ Financial assets are designated as FVTPL when acquired principally for the purpose of trading. Financial assets classified as FVTPL are measured at fair value, with changes in unrealized gains and losses recognized on the Statements of Comprehensive Income.

ⁱⁱ Loans and receivables are non-derivative financial assets that have fixed or determinable payments and are not quoted in an active market. Subsequent to initial recognition, loans and receivables are carried at amortized cost using the effective interest method. Loans and receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default.

ⁱⁱⁱ Other financial liabilities are liabilities that are not derivative liabilities or classified as FVTPL. Subsequent to initial recognition, other financial liabilities are carried at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial instrument and allocating interest over the relevant period. The effective interest rate is the rate that discounts estimated future cash flows (including all

Notes to the Financial Statements (continued)

October 31, 2016 and 2015 (in thousands of Canadian dollars)

Note 2. Significant Accounting Policies (continued)

(d) Financial instruments (continued)

transaction costs and other premiums or discounts) through the expected life of the financial instrument to the net carrying amount on initial recognition.

(e) Investment valuation

Investments, at fair value include the following types of securities: bonds, money market securities, and exchange-traded funds ("ETF").

The fair value of fixed income securities that are not publicly traded is measured by using either the average bid price from multiple dealers, or by the present value of contractual cash flows, discounted at current market rates. Interest accrued at the reporting date is included in Accrued interest and other receivables on the Statements of Financial Position.

The fair value of securities that are publicly traded in an active market is measured using bid prices at the reporting date.

Note 7 provides further guidance on fair value measurements.

(f) Investment transactions and income recognition

Investment transactions are accounted for on a trade-date basis. Interest for allocation to subscriber accounts represents the coupon interest received by the Plan accounted for on an accrual basis. The Plan does not amortize premiums paid or discounts received on the purchase of fixed income securities. Dividends and distributions are accrued as of the ex-dividend date and ex-distribution date, respectively. Realized gains (losses) on the sale of investments and Change in unrealized gains (losses) are calculated with reference to the average cost of the related investments and are recognized in the period that such gains (losses) occur.

(g) Subscribers' deposits and sales charges

Subscribers' deposits reflect amounts received from subscribers and do not include future amounts receivable on outstanding Agreements. A sales charge is required as part of the initial contribution under each Agreement. Sales charges collected during the reporting period are paid to C.S.T.C.

(h) Income taxes

The Plan is exempt from income taxes under Section 146.1 of the *Income Tax Act* (Canada).

(i) Cash and cash equivalents

Cash and cash equivalents include deposit balances with banks and securities with a purchase date to maturity of 90 days or less term deposits, treasury bills and bankers acceptances.

(j) Foreign currency

The functional and presentation currency of the Plan is the Canadian Dollar.

To the extent applicable in any period, foreign currency purchases and sales of investments and foreign currency dividend and interest income are translated into Canadian dollars at the rate of exchange prevailing at the time of the

transactions. Realized and unrealized foreign currency gains or losses on investments are included in the Statements of Comprehensive Income in Realized gains (losses) on sale of investments and Change in unrealized gains (losses), respectively.

(k) Critical accounting estimates and judgments

When preparing the financial statements, C.S.T.C. management makes estimates and judgments that affect the reported amounts recognized and disclosed in the financial statements. These estimates and judgments have a direct effect on the measurement of transactions and balances recognized in the financial statements. By their nature, these estimates and judgments are subject to measurement uncertainty and actual results could differ.

Note 3. Related Party Transactions

Related party transactions are measured at the exchange amount, which is the amount agreed between the parties.

(a) Distribution and Administration of the Plan

The Foundation, as the Plan sponsor, has appointed C.S.T.C. as the Scholarship Plan Dealer and Investment Fund Manager to distribute and administer, respectively, the Plan. The distribution and administration agreements are renewable annually on November 1. Administration and account maintenance fees are paid to the Foundation. Administration fees are annual fees of 1% of the total amount of principal, Government Grants and income earned thereon.

For the year ended October 31, 2016, \$2,989 was recognized as an expense for Administration and account maintenance fees (2015 – \$2,749). Administration and account maintenance fees included in Accounts payable, accrued liabilities and unclaimed subscribers' funds at October 31, 2016 was \$201 (2015 – \$180).

Sales charges paid by subscribers from their initial contributions are paid to C.S.T.C. as compensation for the sale and distribution of savings plans.

For the year ended October 31, 2016, \$9 was paid to C.S.T.C. from sales charges collected (2015 – \$18). Related amounts included in Accounts payable, accrued liabilities and unclaimed subscribers' funds at October 31, 2016 was \$629 (2015 – \$629).

(b) Fees paid for services of an Independent Review Committee

The Independent Review Committee ("IRC") provides independent review and oversight of conflicts of interest relating to the management of the Plans. For the year ended October 31, 2016, the Plan recognized an expense of \$5 (2015 – \$5) for the services of the IRC. IRC fees included in Accounts payable accrued liabilities and unclaimed subscribers' funds at October 31, 2016 was \$nil (2015 – \$nil).

(c) Fees paid to monitor and manage the portfolio managers

Included in Portfolio management fees on the Statements of Comprehensive Income is \$47 (2015 – \$41) charged by C.S.T.C. for expenses incurred to monitor and manage the portfolio managers. Included in Accounts payable, accrued

Notes to the Financial Statements (continued)

October 31, 2016 and 2015 (in thousands of Canadian dollars)

Note 3. Related Party Transactions (continued)

(c) Fees paid to monitor and manage the portfolio managers (continued)

liabilities and unclaimed subscribers' funds is \$3 owing to C.S.T.C. at October 31, 2016 (2015 – \$6) relating to these expenses.

Note 4. Investment Holdings

The investment holdings are disclosed in Schedule I – Statement of Investment Portfolio and the related Appendix I to the schedule, which is explained below.

The Government Grants are invested collectively in a separate fund with Government Grants of other RESP plans administered by C.S.T.C. The Government Grant principal received and income earned thereon are separately tracked for each subscriber's Agreement. The portfolio holdings are allocated across all plans based on the proportion of principal and income attributable to Agreements within each plan (see Appendix I to Schedule I).

Note 5. Capital Risk Management

The Plan's capital consists of the components of the net assets attributable to subscribers and beneficiaries as per the Statements of Financial Position. The Plan has obligations to return subscriber contributions upon maturity or termination as well as pay EAPs of investment income, grants and income on grants. The Plan invests subscriber contributions and government grants received in appropriate investments in accordance with its stated investment objectives while maintaining sufficient liquidity to meet subscribers' obligations.

Note 6. Risks Associated with Financial Instruments

In the normal course of business the Plan may be exposed to a variety of risks arising from financial instruments. The Plan's exposures to such risks are concentrated in its investment holdings and are related to market risk (which includes interest rate risk and other price risk), credit risk, liquidity risk and currency risk.

The Plan's risk management process includes monitoring compliance with the Plan's investment policy. The Plan manages the effects of these financial risks to the Plan portfolio performance by retaining and overseeing professional external investment managers. The investment managers regularly monitor the Plan's positions, market events, and manage the investment portfolio within the constraints of the investment policy and mandate.

(a) Market risk

i. Interest rate risk

Interest rate risk is the risk of a decrease in the Plan's yield on interest-bearing investments as a result of fluctuations in market interest rates. There is an inverse relationship between changes in interest rates and changes in the fair value of

bonds. This risk is actively managed using duration, yield curve analysis, sector and credit selection. There is reduced risk to interest rate changes for cash and cash equivalents due to their short-term nature.

The Plan's holdings of debt instruments by maturity are as follows:

Debt Instruments by Maturity Date	% of Total Investment Fund	
	Oct 31, 2016	Oct 31, 2015
Less than 1 year	6%	6%
1-3 years	17%	16%
3-5 years	17%	23%
Greater than 5 years	48%	45%
Total debt instruments	88%	90%

As at October 31, 2016, if prevailing interest rates had increased by 1%, the fair value of the Total Investment Fund of \$ 250,650 (2015 – \$228,303) as per the Schedule I – Statement of Investment Portfolio would have decreased by approximately \$14,500 (2015 – \$12,900). If prevailing interest rates had decreased by 1%, the fair value of the Total Investment Fund would have increased by approximately \$17,500 (2015 – \$15,400). This 1% change assumes a parallel shift in the yield curve with all other variables held constant. In practice, actual results may differ materially.

ii. Other price risk

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, other than those arising from interest rate risk. Factors specific to an individual investment, its issuer or other factors affecting all instruments traded in a market or market segment affect other price risk. The asset class that is most impacted by other price risk is the ETFs of the Plan and Government Grant asset pool, which represents 12% (2015 – 10%) of the Total Investment Fund amount as at October 31, 2016.

As at October 31, 2016, if equity and underlying indices prices had increased or decreased by 1%, with all other variables held constant, the fair value of the Total Investment Fund as per Schedule I – Statement of Investment Portfolio would have increased or decreased by approximately \$300 (2015 – \$200). In practice, actual results may differ materially.

(b) Credit risk

Credit risk refers to the ability of the issuer of debt securities to make interest payments and repay principal. The Plan's portfolio is comprised of bonds issued or guaranteed by federal or provincial governments along with corporate debt instruments with a minimum approved credit rating as set by Canadian Securities Administrators. The Plan has a concentration of investments in government and government guaranteed bonds, which are considered to be high credit quality investments thereby moderating credit risk.

Notes to the Financial Statements (continued)

October 31, 2016 and 2015 (in thousands of Canadian dollars)

Note 6. Risks Associated with Financial Instruments (continued)

(b) Credit risk (continued)

The Plan's credit risk exposure is summarized below:

Credit rating	October 31, 2016		October 31, 2015	
	% of Total Investment Fund	Amount (in thousands)	% of Total Investment Fund	Amount (in thousands)
AAA	18%	\$ 44,863	20%	\$ 45,023
AA/AAH/AAL	31%	77,068	29%	65,625
A/AH/AL	30%	74,794	31%	70,128
BBB	4%	9,459	3%	6,871
R-1	4%	11,297	6%	13,043

Total debt instruments	88%	\$ 220,534	90%	\$ 205,642

The Dominion Bond Rating Service ("DBRS") was the primary source for obtaining credit ratings. Secondary sources used include Standard & Poor's Financial Services LLC and Moody's Investors Service, Inc.

(c) Liquidity risk

Liquidity risk is the risk that the Plan may not be able to meet its financial obligations as they come due. The Plan's exposure to liquidity risk is concentrated in principal repayments to subscribers and EAPs to beneficiaries. The Plan primarily invests in securities that are traded in active markets and can be readily sold. The Plan retains sufficient cash and cash equivalents positions to meet liquidity requirements by utilizing cash forecasting models that reflect the distribution of subscribers' deposits and accumulated income. All other financial liabilities are short term and due within one year.

(d) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Plan holds ETFs that invest in U.S. equities and are hedged to Canadian dollars by the ETF provider.

Note 7. Fair Value Measurements and Disclosures

Estimates of fair value used for measurement and disclosure are designed to approximate amounts that would be received to sell an asset, or paid to discharge a liability, in an orderly transaction between market participants.

The carrying values of other financial instruments such as Cash and cash equivalents, Accrued interest and other receivables, Receivables for securities sold, Government grants receivable, Accounts payable, accrued liabilities and unclaimed subscribers' funds and Payables for securities purchased approximate their fair values as these financial instruments are short term in nature.

The following table presents the level in the fair value hierarchy into which the Plan's financial instruments that are carried at fair value in the Statements of Financial Position are categorized:

- Level 1 financial instruments are valued using quoted market prices.
- Level 2 financial instruments are valued using directly or indirectly observable inputs.
- Level 3 financial instruments are valued using unobservable inputs (including the use of assumptions based on the best information available).

Assets Measured at Fair Value as of October 31, 2016

	Level 1	Level 2	Level 3	Total
Fixed income securities	\$ -	\$ 206,350	\$ -	\$ 206,350
Equity Securities	30,116	-	-	30,116
Total Investments, at fair value	\$ 30,116	\$ 206,350	\$ -	\$ 236,466

Assets Measured at Fair Value as of October 31, 2015

	Level 1	Level 2	Level 3	Total
Fixed income securities	\$ -	\$ 192,257	\$ -	\$ 192,257
Equity Securities	22,661	-	-	22,661
Total Investments, at fair value	\$ 22,661	\$ 192,257	\$ -	\$ 214,918

For the years ended October 31, 2016 and 2015, there were no transfers between Levels 1 or 2.
