CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Certain portions of the Management Report of Fund Performance, including but not limited to, "Results of Operations" and "Recent Developments", may contain forward-looking statements about the Plan, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Plan action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Plan and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Plan. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

Management Report of Fund Performance

Introduction

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Canadian Scholarship Trust Founders' Plan ("the Plan"). A copy of the annual financial statements can be obtained on request, and at no cost, by visiting our website at www.cst.org, SEDAR at www.sedar.com, by calling our customer service team at 1-877-333-7377 or by writing to us by mail at 2235 Sheppard Avenue East, Suite 1600, Toronto, Ontario M2J 5B8.

The Canadian Scholarship Trust Foundation, as the Plan sponsor, and C.S.T. Consultants Inc., as the Investment Fund Manager, view corporate governance and compliance as critical to overall corporate performance and long-term investment returns, and as such we review and support the proxy voting guidelines established by our investment managers. Each investment manager's proxy voting policy is available on request through our customer service area or by contacting us at cstplan@cst.org.

Investment Objective and Strategy

The Plan's investment objectives are to protect Subscribers' principal (net "Contributions" or "Principal"), and to deliver a reasonable positive return on investments over a long-term investment horizon within prudent risk tolerances.

The Plan invests primarily in debt securities of Canadian federal or provincial governments, and corporations.

The investments held by the Plan are managed by TD Asset Management Inc. The investment assets are allocated among different market sectors and different maturity segments at the portfolio manager's discretion, subject to our investment policies and mandates. The portfolio manager actively manages the Plan, focusing on strategies where value can be added on a sustainable basis. These strategies include sector allocation, duration management, credit research and yield curve positioning.

Risk

The risks of investing in the Plan remain as described in the prospectus. There were no material changes to the Plan during the financial year that affected the overall level of risk associated with an investment in the Plan.

Results of Operation

2015 Plan Performance

For 2015, the Plan's rate of return, net of fees, was 2.1% compared to the investment policy benchmark ("Benchmark") return of 2.7% and the FTSE TMX Canada All Government Bond Index return of 4.9% ("Broad-based Index"). The Plan's return is after the deduction of fees and expenses of 0.7%, while the Benchmark and Broad-based Index returns do not include any costs of investing such as fees, expenses and commissions.

In comparison to the Benchmark, the Plan's overweight position to corporate bonds generated incremental yield; however, this was largely offset as spreads widened throughout the year. Overall, the Plan's strategic investment positioning had a neutral impact on returns as compared to the Benchmark.

In comparison to the Broad-based Index, the Plan's allocation to treasuries and short term government bonds and short term corporate bonds contributed negatively as yields fell throughout the period. Given the Plan's liabilities and expected maturity payout profile, the composition of the Plan's assets are managed to meet the

cash flow requirements of Plan holder's. Overall, the Plan's strategic investment positioning had a negative effect on returns, as compared to the Broad-based Index.

Economic Review

Global growth declined in the first half of 2015 with a weaker than anticipated recovery for developed economies. Financial market volatility rose sharply throughout the summer with declining commodity prices and an abrupt correction in equity prices worldwide. Temporary surges in volatility were associated with events related to Greek debt negotiations and steep stock market declines in China. Despite a modest improvement over the latter half of the year, 2015 growth rate forecasts remained below those of 2014.

In the United States, real GDP, measured on an annualized basis, rose 3.9% in the second quarter of 2015, following a 0.6% gain in the first, supported in large part by consumer spending, private fixed investment and exports. The Federal Reserve Board ended speculation in September with the decision to maintain the funds target rate at 0.25%; citing global economic weakness as a key factor in refraining from any immediate rate hikes.

The Canadian economy experienced a two-quarter recession in the first half of 2015. Real GDP declined 0.1% in the second quarter, following a 0.2% contraction in the first due in large part to the decline in oil prices and lower export sales. The Bank of Canada ("BoC") responded with two rate cuts; once in January that was largely unanticipated by the market, followed with an additional cut in July lowering the overnight rate to 0.5%. GDP modestly strengthened in June, July, and August supported by gains in manufacturing and oil and gas extraction. Excluding energy prices, annual consumer inflation remained within the BoC's target range of 1% – 3%.

Canadian bond yields trended downwards at a modest pace early in the fiscal year only to plunge in response to the BoC's surprise rate cut in January. Despite a second rate cut in July, yields tended to recover upward, albeit ending the year at levels modestly below those of October 2014. Both medium and long-term yields also fell throughout the period, although not to the same extent as short term bonds. These actions contributed to a steepening of the yield curve throughout the fiscal period. Despite the impact of rising yields in the latter half of fiscal 2015, long term government bonds

outperformed relative to mid and short term issues over the course of the full year. In this environment, provincial bonds outperformed relative to federals at the short and mid portion of the curve, but underperformed at the long end. Corporate spreads widened modestly throughout the year, contributing to underperformance relative to government bonds throughout the fiscal year.

As at October 31, 2015, 90.5% of the Plan's Total Portfolio Assets were invested in Government Bonds, 6.8% in Corporate Bonds, and 2.7% in Cash and Short-Term Investments.

Recent Developments and Other Information

Growth in advanced economies is projected to increase modestly in 2015 and into 2016 according to a report released by the International Monetary Fund ("IMF") in October, 2015. Prospects across regions remain uneven, and in particular for those in emerging markets reliant upon commodity and oil-exports, as weakness in pricing is expected to persist.

On December 2nd, 2015, the BoC announced that it is maintaining the overnight rate at 0.5%. The BoC noted in an accompanying statement that global economic growth is evolving essentially as anticipated in its October Monetary Policy Report (MPR). The economy continues to undergo an adjustment aided by the ongoing US recovery, a lower Canadian dollar and the BoC's monetary policy easing this year. The resource sector is still contending with lower prices for commodities. The BoC expects GDP growth to moderate in the fourth quarter of 2015 before moving to a rate above potential in 2016. Total CPI inflation remains near the bottom of the BoC's target range, owing to declines in consumer energy prices. Core inflation is close to 2% as the effects of the lower dollar and the output gap continue to offset each other. While bond yields are slightly higher, financial conditions remain accommodative in Canada.

On December 16th, 2015, for the first time in almost a decade, the Federal Reserve Board raised the benchmark interest rate by 0.25 percentage points. Recent U.S. economic data appears encouraging as employers added 271,000 people to payrolls in October, and unemployment fell to 5%. Job openings in September climbed to the second highest on record, while the consumer price index, minus food and energy, rose 1.9% last month from a year earlier.

We are confident that our investment strategy and conservative management approach will continue to provide value. Our goal, as always, is to provide safety of principal and deliver a reasonable return within our investment policy guidelines and risk tolerances for our subscribers and beneficiaries.

International Financial Reporting Standards

International Financial Reporting Standards ("IFRS") replaced Canadian generally accepted accounting standards as defined in Part V of the Chartered Professional Accountants of Canada Handbook ("Canadian GAAP") for certain qualifying investment funds for years beginning on or after January 1, 2014. Therefore, the Plan adopted IFRS to replace Canadian GAAP on November 1, 2014, with a transition date of November 1, 2013. In accordance with IFRS, the Plan has reclassified subscribers' deposits with other amounts owing to subscribers and beneficiaries and renamed these as Net Assets Attributable to Subscribers and Beneficiaries.

Future Accounting Standards

In July 2014, the International Accounting Standards Board issued IFRS 9, Financial Instruments, to replace International Accounting Standard 39, Financial Instruments – Recognition and Measurement ("IAS 39"). IFRS 9 introduces new requirements for the classification and measurement of financial assets and will be effective for the Plan's financial statements for the year ending October 31, 2019.

Financial and Operating Highlights (with comparative figures)

The following table is intended to help you understand the key financial results for the past five fiscal years ending October 31 for the Plan. This information is derived from the Plan's audited annual financial statements.

(\$ thousands)	2015 ¹	2014 ¹	2013 ²	2012 ²	2011 ²

Management Fees

Administration Fees

An administration fee of \$505 thousand (2014 – \$705 thousand) comprising Plan administration and processing fees and financial reporting expenses was paid to the Canadian Scholarship Trust Foundation (“the Foundation”), the sponsor and administrator of the Plan, in accordance with subscribers’ Education Savings Plan Agreements. The administration of the Plan includes processing and call centre services related to new agreements, Government Grants, plan modifications, terminations, maturities and Education Assistance Payments (“EAPs”). The annual administration fee is calculated as 0.5% of the total amount of Principal, Government Grants and Income earned on these amounts, subject to applicable taxes, and is paid monthly.

The Foundation has delegated certain administrative and distribution functions to its wholly-owned subsidiary, C.S.T. Consultants Inc., which is registered as the Plan’s Investment Fund Manager in Ontario, Quebec, Newfoundland and Labrador, and Scholarship Plan Dealer under securities legislation of each of the provinces and territories of Canada in which it operates to sell scholarship plans. C.S.T. Consultants Inc. is the exclusive distributor of the Canadian Scholarship Trust Plans.

In exchange for its administrative services, C.S.T. Consultants Inc. receives an amount equal to the administration costs incurred plus a percentage of such costs from the Foundation. The administration services agreement is renewable on an annual basis.

Portfolio Management Fees

The Plan’s annual investment management fee was 0.14% including applicable taxes, (2014 – 0.13%) of the average market value of assets, based on the Investment Management Agreements with portfolio managers. The portfolio managers provide investment advisory and discretionary managed account services with respect to purchasing, selling, and dealing in securities.

Trustee and Custodian Fees

The Plan pays trustee and custodian fees to RBC Investor Services Trust to settle all investment trades and disburse fees, EAPs and other amounts in accordance with the terms of the Plan Agreement. For 2015 these fees charged to the Plan amounted to \$27 thousand (2014 – \$49 thousand) and were 0.03%, including applicable taxes, (2014 – 0.04%) of average market value of assets.

Summary of Plan Investment Portfolio

The Plan’s Total Portfolio Assets are comprised of Principal and Income for all education savings plan agreements that have not reached their maturity date, and the assets from which eligible beneficiaries collect EAP payments.

Government grant assets and related investment income are specific to each beneficiary, but are invested together with funds from other Plans administered by the Foundation. Any payments to

beneficiaries from Government grant assets are treated as separate payments and are not included in EAP values paid out.

The Plan’s Total Portfolio Assets as presented and as defined in this report, reflect only the Principal and Income assets. The Plan’s Total Portfolio Assets do not include the allocation of assets from the Government Grant asset pool that are attributable to this Plan.

The following chart illustrates the Plan’s Total Portfolio Assets by investment categories.

Asset Mix as at October 31, 2015

The following table details the top 25 long positions in the Total Portfolio Assets of the Plan. The Plan is prohibited from holding short positions in securities.

Past Performance

The returns presented in the following chart and the annual compound returns table are based on the investment performance of the Plan's Total Portfolio Assets only and do not reflect the investment performance of assets from the Government Grants. Investment returns have been calculated using market values and time-weighted cash flows during the periods. Total expenses incurred by the Plan, including administration, portfolio management, custody and trustee fees, and Independent Review Committee expenses have been deducted and only net returns are displayed in each period. Past returns of the Plan do not necessarily indicate how it will perform in the future.

Year-by-Year Returns

The following bar chart illustrates the annual performance in each of the past ten years to October 31, 2015 of the Plan's Total Portfolio Assets. The chart illustrates in percentage terms how much an investment made in the Total Portfolio Assets, on the first day of each financial year, would have increased or decreased by the last day of each financial year:

Annual Compound Returns

The Benchmark for this Plan is:

- 92% FTSE TMX Canada Short Term Government Bond Index
- 7% FTSE TMX Canada Short Term Corporate Bond Index
- 1% FTSE TMX Canada 91-Day Treasury Bill Index

The FTSE TMX Canada Short Term Government Bond Index is a broad measure of Canadian investment grade fixed income securities, issued by the Government of Canada, including Crown Corporations and provincial governments, with maturities between 1 and 5 years.

The FTSE TMX Canada Short Term Corporate Bond Index is a broad measure of Canadian investment grade fixed income securities issued by corporations, with maturities between 1 and 5 years.

The FTSE TMX Canada 91-Day Treasury-Bill Index is based upon the average daily yield of 91-Day Treasury-Bills.

The FTSE TMX Canada All Government Bond Index is a broad measure of Canadian investment grade fixed income securities, issued by the Government of Canada, including Crown Corporations and provincial governments, with maturities greater than 1 year.

The following table illustrates the annual compound returns of the Plan's Total Portfolio Assets for the periods shown ending on October 31, 2015.

	Period			
	1 Yr	3 Yr	5 Yr	10 Yr
Net Plan Return*	2.1	1.6	2.0	2.9
Benchmark	2.7	2.2	2.4	4.0
Broad-based Index: FTSE TMX Canada All Government Bond Index	4.9	3.3	4.2	4.9

* Note: The Plan returns are after the deduction of fees and expenses, while the benchmark and broad-based index returns do not include any costs of investing such as fees, expenses and commissions. The Plan's fees and expenses were 0.7% for all periods.

For commentary on the market and/or information regarding the relative performance of the Plan compared to its Broad-based Index and Benchmark, see the Results of Operations section of this report.

Management's Responsibility for Financial Reporting

The accompanying financial statements of the Canadian Scholarship Trust Founders' Plan (the "Plan") are prepared by management and are approved by the Board of Directors of the Canadian Scholarship Trust Foundation (the "Foundation"). Management is responsible for the information and representations contained in these financial statements. The Board of Directors is responsible for reviewing and approving the financial statements and overseeing management's performance of its financial reporting responsibilities.

The Foundation, through C.S.T. Consultants Inc., a wholly-owned subsidiary which administers the Plan, maintains appropriate processes to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with International Financial Reporting Standards and include certain amounts that are based on estimates and judgments. The significant accounting policies, which management believes are appropriate for the Plan, are described in Note 2 to the financial statements.

Deloitte LLP is the external auditor of the Plan. It has audited the financial statements in accordance with Canadian generally accepted auditing standards to enable it to express to the Board of Directors and Members of the Foundation its opinion on the financial statements. Its report is set out below.

Independent Auditor's Report

To the Board of Directors and Members of the Canadian Scholarship Trust Foundation

We have audited the accompanying financial statements of the Canadian Scholarship Trust Founders' Plan, which comprise the statements of financial position as at October 31, 2015, October 31, 2014 and November 1, 2013, and the statements of comprehensive income, statements of changes in net assets attributable to subscribers and beneficiaries and statements of cash flows for the years ended October 31, 2015 and October 31, 2014, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Canadian Scholarship Trust Founders' Plan as at October 31, 2015, October 31, 2014 and November 1, 2013 and the results of its financial performance, changes in its net assets attributable to subscribers and beneficiaries and its cash flows for the years ended October 31, 2015 and October 31, 2014 in accordance with International Financial Reporting Standards.

Schedule II – Subscribers' Deposits and Accumulated Income

As at October 31, 2015 and 2014 (in thousands of Canadian dollars)

The following table provides a summary of Founders' Plan units, Subscribers' Deposits and Accumulated Income by year of eligibility.

Year of Eligibility	Opening Units	Inflow Units ¹	Outflow Units ²	Closing Units	Subscribers' Deposits	Accumulated Income ³
2014 and prior to 2014	58,921	112	21,443	37,590	\$ 3,737	\$ 16,926
2015	10,671	970	1,603	10,038	1,478	6,613
2016	8,519	997	3,499	6,017	1,810	4,633
2017	3,891	1,543	156	5,278	6,781	3,669
2018	2,160	2	13	2,149	2,583	1,241
2019	198		4	194	211	106
2020	9			9	5	4
2021	2			2	1	2
2022 and thereafter	4			4	2	2
TOTAL	84,375	3,624	26,718	61,281	\$ 16,608	\$ 33,196

1 Inflow units are comprised of transfers in.

2 Outflow units are comprised of terminations, transfers out and education assistance payments.

3 Accumulated income represents both income allocated to Subscribers' accounts and income held for future education assistance payments.

The changes in Subscribers' deposits are as follows:

	2015	2014
Payments from subscribers	\$ 535	\$ 1,085
Inter-plan principal transfers	(3,297)	(4,793)
Account maintenance fees	(19)	(33)
Return of principal	(9,244)	(14,544)
Net decrease in Subscribers' deposits	(12,025)	(18,285)
Balance, Beginning of Year	28,633	46,918
Balance, End of Year	\$ 16,608	\$ 28,633

Schedule III – Education Assistance Payments

For the years ended October 31, 2015 and 2014 (in thousands of Canadian dollars, except for per unit amounts)

The following tables provide the total dollar payments by fiscal year, as well as number of eligible units paid and education assistance payment amounts by year of eligibility.

Education Assistance Payments	2015	2014	Education Assistance Payments	2015	2014
Current year payments	\$ 8,231	\$ 9,644	Non-Discretionary	\$15,845	\$18,647
Deferred payments	7,577	8,965	Discretionary	–	–
Advance payments	37	38		\$15,845	\$18,647
	\$15,845	\$18,647			

	Number of Education Assistance Payment units Year of Eligibility			Amount of Education Assistance Payment per unit Year of Eligibility		
	2015	2014	2013	2015	2014	2013
First	5,981.3	8,052.2	8,197.9	\$ 376	\$ 400	\$ 411
Second		6,555.5	6,783.3		445	466
Third			5,826.5			526

Notes to the Financial Statements

October 31, 2015 and 2014 and November 1, 2013 (in thousands of Canadian dollars)

Note 1. Nature of Operations

The Canadian Scholarship Trust Founders' Plan (the "Plan") is a Pooled Education Savings Plan that was established on September 1, 1988. Since June 2000, the Plan is no longer available for sale. The objective of the Plan is to assist parents and others to save for the post-secondary education of children. The Plan is managed by C.S.T Consultants Inc. ("C.S.T.C."), a wholly-owned subsidiary of the Canadian Scholarship Trust Foundation (the "Foundation"). The Plan's registered place of business is 1600-2235 Sheppard Avenue East, Toronto, Ontario, Canada.

Payments are made by a subscriber to an account maintained by the Plan's trustee on behalf of a beneficiary. Deductions of sales charges and account maintenance fees are made from the subscriber's contributions. The principal accumulated over the term of the subscriber's education savings plan agreement (the "Agreement") is returned to the subscriber when:

- i. the Agreement matures and the beneficiary is a qualified student eligible to receive the first education assistance payment ("EAP"),
- ii. the Agreement matures and the beneficiary is not yet a qualified student, in which case the beneficiary will forfeit all government grants (as described below), or
- iii. the Agreement is terminated.

The investment income earned on the subscribers' principal balance is used to provide EAPs to qualified students. A beneficiary is deemed to be a qualified student upon receipt by the Foundation of evidence of enrolment in a qualifying educational program at an eligible institution.

There are a number of government grants that may be available to beneficiaries including the Canada Education Savings Grant Program ("CESG"), the Alberta Centennial Education Savings Grant ("ACES"), the Quebec Education Savings Incentive ("QESI") and the Saskatchewan Advantage Grant for Education Savings ("SAGES") (collectively, "Government Grants"). The Alberta government announced that no new grants will be made under the ACES program after July 31, 2015.

The Plan collects Government Grants, which are credited directly into subscribers' Agreements ("Agreements") and invests these funds in accordance with the Plan's investment policies. The Government Grants along with investment income earned thereon are paid to qualified students with their EAPs.

Agreements are registered with appropriate government authorities if all required information is provided and once registered, are subject to the rules for Registered Education Savings Plans ("RESP") under the *Income Tax Act* (Canada). The current tax legislation provides that income credited on subscribers' principal is not taxable income of the subscriber unless withdrawn as an Accumulated Income Payment subject to certain eligibility requirements. The deposits are not deductible for income tax purposes and are not taxable when returned to the subscriber. Payments made to a beneficiary, including EAPs, Government Grants and investment income earned on Government Grants will constitute taxable income of that beneficiary in the year that the payments are made.

Note 2. Significant Accounting Policies

(a) Statement of Compliance

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"). These are the Plan's first annual financial statements prepared in accordance with IFRS; previously the Plan prepared its financial statements in accordance with Canadian Generally Accepted Accounting Principles ("Canadian GAAP") as defined in Part V of the Chartered Professional Accountants of Canada Handbook. The date of transition to IFRS (the "Transition Date") is November 1, 2013. IFRS 1, First Time Adoption of International Financial Reporting Standards ("IFRS 1") has been applied.

An explanation of how the transition to IFRS has affected the reported financial position, financial performance and cash flows of the Plan is provided in Note 8. The accounting policies have been selected to be consistent with IFRS that were effective on October 31, 2015. The accounting policies have been consistently applied to all periods presented.

These financial statements were approved by the Board of the Foundation on January 7, 2016.

(b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for financial instruments classified as "at fair value through profit or loss" ("FVTPL"), which are measured at fair value.

(c) Future accounting standard

The following new accounting standard has been issued by the International Accounting Standards Board ("IASB"). This new standard is not yet effective and the Plan has not completed its assessment of the impact on its financial statements.

IFRS 9 Financial Instruments ("IFRS 9")

IFRS 9 was issued in November 2009 to replace IAS 39 *Financial Instruments: Recognition and Measurement* ("IAS 39"). IFRS 9 will be effective for the Plan's financial statements during its fiscal 2019 year.

IFRS 9 introduces new requirements for the classification and measurement of financial assets, reducing the number of classifications from those in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets.

(d) Financial instruments

The Plan recognizes financial assets and financial liabilities when it becomes a party to a contract. Financial assets and financial liabilities, with the exception of those classified as FVTPL, are measured at fair value plus transaction costs on initial recognition. Financial assets and financial liabilities classified as FVTPL are measured at fair value on initial recognition and transaction costs are expensed when incurred. Investments, at fair value have been designated as FVTPL.

Notes to the Financial Statements (continued)

October 31, 2015 and 2014 and November 1, 2013 (in thousands of Canadian dollars)

Note 2. Significant Accounting Policies (continued)

(d) Financial instruments (continued)

Measurement in subsequent periods depends on the classification of the financial instrument. The financial assets and financial liabilities of the Plan are classified as follows:

Financial asset or financial liability	Classification
Investments, at fair value	FVTPL ⁱ
Cash and cash equivalents	Loans and receivables ⁱⁱ
Accrued interest and other receivables	Loans and receivables ⁱⁱ
Receivables for securities sold	Loans and receivables ⁱⁱ
Accounts payable, accrued liabilities and unclaimed subscriber funds	Other financial liabilities ⁱⁱⁱ
Payables for securities purchased	Other financial liabilities ⁱⁱⁱ

ⁱ Financial assets are designated as FVTPL when acquired principally for the purpose of trading. Financial assets classified as FVTPL are measured at fair value, with changes recognized in Net Income and Comprehensive Income Attributable to Subscribers and Beneficiaries.

ⁱⁱ Loans and receivables are non-derivative financial assets that have fixed or determinable payments and are not quoted in an active market. Subsequent to initial recognition, loans and receivables are carried at amortized cost using the effective interest method. Loans and receivables are considered for impairment when they are past due or when other objective evidence is received that a specific counterparty will default.

ⁱⁱⁱ Other financial liabilities are liabilities that are not derivative liabilities or classified as FVTPL. Subsequent to initial recognition, other financial liabilities are carried at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial instrument and allocating interest over the relevant period. The effective interest rate is the rate that discounts estimated future cash flows (including all transaction costs and other premiums or discounts) through the expected life of the financial instrument to the net carrying amount on initial recognition.

(e) Investment valuation

Investments, at fair value include the following types of securities: bonds, money market securities, and exchange-traded funds ("ETF").

The fair value of fixed income securities that are not publicly traded is measured by using either the average bid price from multiple dealers, or by the present value of contractual cash flows, discounted at current market rates. Interest accrued at the reporting date is included in Accrued interest and other receivables.

The fair value of securities that are publicly traded in an active market is measured using bid prices at the reporting date.

Note 7 provides further guidance on fair value measurements.

(f) Investment transactions and income recognition

Investment transactions are accounted for on a trade-date basis. Interest for allocation to subscriber accounts represents the coupon interest received by the Plan accounted for on an accrual basis. The Plan does not amortize premiums paid or discounts received on the purchase of fixed income securities.

Dividends and distributions are accrued as of the ex-dividend date and ex-distribution date, respectively. Realized gains (losses) on the sale of investments and Change in unrealized gains (losses) are calculated with reference to the average cost of the related investments and are recognized in the period that such gains (losses) occur.

(g) Subscribers' deposits, sales charges and account maintenance fees

Subscribers' deposits reflect amounts received from subscribers net of sales charges and account maintenance fees and do not include future amounts receivable on outstanding Agreements. Sales charges are deducted from subscribers' deposits and are collected over periods of up to 32 months from the date of initial deposit. Account maintenance fees are paid annually to the Foundation from subscribers' deposits and are accrued throughout the year.

(h) Income taxes

The Plan is exempt from income taxes under Section 146.1 of the *Income Tax Act* (Canada).

(i) Cash and cash equivalents

Cash and cash equivalents include deposit balances with banks and securities with a purchase date to maturity of 90 days or less: Term deposits, treasury bills and bankers acceptances.

(j) Foreign currency

The functional and presentation currency of the Plan is the Canadian Dollar.

To the extent applicable in any period, foreign currency purchases and sales of investments and foreign currency dividend and interest income are translated into Canadian dollars at the rate of exchange prevailing at the time of the transactions. Realized and unrealized foreign currency gains or losses on investments are included in the Statements of Comprehensive Income in Realized gains (losses) on sale of investments and Change in unrealized gains (losses), respectively.

(k) Critical accounting estimates and judgments

When preparing the financial statements, C.S.T.C. management makes estimates and judgments that affect the reported amounts recognized and disclosed in the financial statements. These estimates and judgments have a direct effect on the measurement of transactions and balances recognized in the financial statements. By their nature, these estimates and judgments are subject to measurement uncertainty and actual results could differ.

Note 3. Related Party Transactions

Related party transactions are measured at the exchange amount, which is the amount agreed between the parties.

(a) Administration of the Plan

The Foundation, as the Plan sponsor, has appointed C.S.T.C. as the Investment Fund Manager to administer the Plan. Administration and account maintenance fees are paid to the Foundation. Administration fees are annual fees of ½ of 1% of

Notes to the Financial Statements (continued)

October 31, 2015 and 2014 and November 1, 2013 (in thousands of Canadian dollars)

Note 3. Related Party Transactions (continued)

(a) Administration of the Plan (continued)

the total amount of principal, Government Grants and income earned thereon.

During the year ended October 31, 2015, \$505 was recognized as an expense for Administration and account maintenance fees (2014 – \$705). Administration and account maintenance fees included in Accounts payable, accrued liabilities and unclaimed subscribers' funds at October 31, 2015 was \$43 (October 31, 2014 – \$29; November 1, 2013 – \$27).

(b) Fees paid for services of an Independent Review Committee

The Independent Review Committee ("IRC") provides independent review and oversight of conflicts of interest relating to the management of the Plans. For the year ended October 31, 2015, the Plan recognized an expense of \$2 (2014 – \$3) for the services of the IRC. No amounts were included in Accounts payable, accrued liabilities and unclaimed subscribers' funds at October 31, 2015, October 31, 2014 or November 1, 2013.

(c) Fees paid to monitor and manage the portfolio managers

Included in Portfolio management fees on the Statements of Comprehensive Income is \$17 (2014 – \$11) charged by C.S.T.C. for expenses incurred to monitor and manage the portfolio managers. Included in Accounts payable, accrued liabilities and unclaimed subscribers' funds is \$5 owing from C.S.T.C. at October 31, 2015 (\$4 at October 31, 2014; \$nil at November 1, 2013) relating to these expenses.

Note 4. Investment Holdings

The investment holdings are disclosed in Schedule I – Statement of Investment Portfolio and related Appendix I to the schedule, which is explained below.

The Government Grants are invested collectively in a separate fund with Government Grants of other RESP plans administered by C.S.T.C. The Government Grant principal received and income earned thereon are separately tracked for each subscriber's Agreement. The portfolio holdings are allocated across all plans based on the proportion of principal and income attributable to Agreements within each plan (see Appendix I to Schedule I).

Note 5. Risks Associated with Financial Instruments

In the normal course of business the Plan may be exposed to a variety of risks arising from financial instruments. The Plan's exposures to such risks are concentrated in its investment holdings and are related to market risk, credit risk and liquidity risk.

The Plan's risk management process includes monitoring compliance with the Plan's investment policy. The Plan manages the effects of these financial risks to the Plan portfolio performance by retaining and overseeing professional external investment managers. The investment managers regularly monitor the Plan's positions,

market events and manage the investment portfolio within the constraints of the investment policy and mandate.

(a) Market risk

i. Interest rate risk

Interest rate risk is the risk of a decrease in the Plan's yield on interest-bearing investments as a result of fluctuations in market interest rates. There is an inverse relationship between changes in interest rates and changes in the fair value of bonds. This risk is actively managed using duration, yield curve analysis, sector and credit selection. There is reduced risk to interest rate changes for cash and cash equivalents due to their short-term nature.

The Plan's holdings of debt instruments by maturity are as follows:

Debt Instruments by Maturity Date	% of Total Investment Fund		
	Oct 31, 2015	Oct 31, 2014	Nov 1, 2013
Less than 1 year	2%	1%	24%
1-3 years	37%	40%	38%
3-5 years	37%	43%	28%
Greater than 5 years	18%	11%	10%
Total debt instruments	94%	95%	100%

As at October 31, 2015, if prevailing interest rates had increased by 1%, the Total Investment Fund amount of \$78,675 (October 31, 2014 – \$111,854; November 1, 2013 – \$152,587) as per Schedule I – Statement of Investment Portfolio, would have decreased by \$2,968 (October 31, 2014 – \$3,370; November 1, 2013 – \$3,619). If prevailing interest rates had decreased by 1%, the Total Investment Fund would have increased by \$3,434 (October 31, 2014 – \$3,725; November 1, 2013 – \$3,944). This 1% change assumes a parallel shift in the yield curve with all other variables held constant. In practice, actual results may differ materially.

ii. Other price risk

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, other than those arising from interest rate risk. Factors specific to an individual investment, its issuer or other factors affecting all instruments traded in a market or market segment affect other price risk. The asset class that is most impacted by other price risk is the ETFs of the Government Grants asset pool, which represents 6% (October 31, 2014 – 5%; November 1, 2013 – nil%) of the Total Investment Fund amount as at October 31, 2015. If underlying indices prices had increased or decreased by 1% with all other variables held constant, the total investment fund amount as per Schedule I – Statement of Investment Portfolio would have increased or decreased by approximately \$45 (October 31, 2014 – \$54; November 1, 2013 – \$nil). In practice, actual results may differ materially.

Notes to the Financial Statements (continued)

October 31, 2015 and 2014 and November 1, 2013 (in thousands of Canadian dollars)

Note 5. Risks Associated with Financial Instruments (continued)

(b) Credit risk

Credit risk refers to the ability of the issuer of debt securities to make interest payments and repay principal. The Plan's portfolio is comprised of bonds issued or guaranteed by federal or provincial governments along with corporate debt instruments with a minimum approved credit rating as set by Canadian Securities Administrators. The Plan has a concentration of investments in government and government guaranteed bonds, which are considered to be high credit quality investments thereby moderating credit risk.

The Plan's credit risk exposure is summarized below.

Credit rating	Oct 31, 2015		Oct 31, 2014		Nov 1, 2013	
	% of Total Investment Fund (in thousands)	Amount	% of Total Investment Fund (in thousands)	Amount	% of Total Investment Fund (in thousands)	Amount
AAA	36%	\$ 28,353	42%	\$ 46,795	36%	\$ 54,853
AA/AAH/AAL	27%	21,614	27%	29,949	21%	31,890
A/AH/AL	28%	21,973	26%	28,587	22%	33,543
BBB	0%	205	0%	102	0%	532
R-1	1%	413	0%	465	20%	30,820
Short-term unrated	2%	1,655	0%	492	1%	949
Total debt instruments	94%	\$ 74,213	95%	\$ 106,390	100%	\$ 152,587

The Dominion Bond Rating Service ("DBRS") was the primary source for obtaining credit ratings. Secondary sources used include Standard & Poor's Financial Services LLC and Moody's Investors Service, Inc.

(c) Liquidity risk

Liquidity risk is the risk that the Plan may not be able to meet its financial obligations as they come due. The Plan's exposure to liquidity risk is concentrated in principal repayments to subscribers and EAPs. The Plan primarily invests in securities that are traded in active markets and can be readily sold. The Plan retains sufficient cash and cash equivalents positions to meet liquidity requirements by utilizing cash forecasting models that reflects the maturity distribution of subscribers' deposits and accumulated income. All other financial liabilities are short term and due within one year.

(d) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Plan holds ETFs that invest in U.S. equities and are hedged to Canadian dollars by the ETF provider.

Note 6. General Fund and Donations from the Foundation

The Canadian Scholarship Trust (the "Canadian Trust") is a legal trust, which includes Plan II and Founders' Plan (the "Plans"). The Plans are registered with Canada Revenue Agency as Education

Savings Plans. The General Fund is a separate account within the Canadian Trust and derives its income from the following sources:

- interest earned on subscribers' accumulated income from the date of maturity of the subscribers' agreements to the date the funds are paid to qualified students as EAPs;
- interest earned on the income forfeited when a subscriber's plan is terminated prior to maturity;
- income not collected by beneficiaries before the expiry of benefit period; and
- unclaimed principal and income payments.

Receipts and disbursements of the General Fund for the years ended October 31, 2015 and 2014 are as follows:

	2015	2014
Receipts		
Net investment income	\$ 635	\$ 721
Transfer from Scholarship Pool	-	172
Transfer from Plan II	-	2,500
		3,393
Disbursements		
Education assistance payments	(1,743)	(1,896)
Excess of (Disbursements) Receipts over (Receipts) Disbursements	(1,108)	1,497
Balance, Beginning of Year	3,796	2,299
Balance, End of Year	\$ 2,688	\$ 3,796

In accordance with the policy on transferring General Fund and Donations between Plans within the same legal trust, in 2015 management forecasted the remaining liability for Plan II. As a result of this forecast, \$ nil (2014 - \$2,500) was transferred from Plan II to satisfy EAP requirements for Founders' Plan. The forecast is updated and reviewed annually.

Donations from the Foundation represent a discretionary pool of funds shared between the Plans. These funds are used to supplement EAPs when the General Fund is depleted. The amount is allocated annually between the Plans according to the payout forecast in each of the Plans.

Receipts and disbursements in the Donations from the Foundation for the years ended October 31, 2015 and 2014 are as follows:

	2015	2014
Disbursements		
Education assistance payments	\$ -	\$ -
Balance, Beginning of Year	154	154
Balance, End of Year	\$ 154	\$ 154

According to the trust indenture of the Canadian Trust, the General Fund may be used to subsidize EAPs for qualified students of any of the active Plans within the Canadian Trust.

Donations from the Foundation represent a discretionary pool of funds shared between the Plans. These funds are used to supplement EAPs when the General Fund is depleted.

Notes to the Financial Statements (continued)

October 31, 2015 and 2014 and November 1, 2013 (in thousands of Canadian dollars)

Note 7. Fair Value Measurements and Disclosures

Estimates of fair value used for measurement and disclosure are designed to approximate amounts that would be received to sell an asset, or paid to discharge a liability, in an orderly transaction between market participants.

The carrying values of other financial instruments such as Cash and cash equivalents, Accrued interest and other receivables, Receivables for securities sold, Government grants receivable, Accounts payable, accrued liabilities and unclaimed subscribers' funds and Payables for securities purchased approximate their fair value as these financial instruments are short term in nature.

The following table presents the level in the fair value hierarchy into which the Plan's financial instruments that are carried at fair value in the Statements of Financial Position are categorized:

- i. Level 1 financial instruments are valued using quoted market prices.
- ii. Level 2 financial instruments are valued using directly or indirectly observable inputs.
- iii. Level 3 financial instruments are valued using unobservable inputs (including the use of assumptions based on the best information available).

Assets Measured at Fair Value as of October 31, 2015

	Level 1	Level 2	Level 3	Total
Fixed income securities	\$ -	\$ 72,585	\$ -	\$ 72,585
Equity Securities	4,462	-	-	4,462
Total Investments, at fair value	\$ 4,462	\$ 72,585	\$ -	\$ 77,047

Assets Measured at Fair Value as of October 31, 2014

	Level 1	Level 2	Level 3	Total
Fixed income securities	\$ -	\$ 105,451	\$ -	\$ 105,451
Equity Securities	5,464	-	-	5,464
Total Investments, at fair value	\$ 5,464	\$ 105,451	\$ -	\$ 110,915

Assets Measured at Fair Value as of November 1, 2013

	Level 1	Level 2	Level 3	Total
Fixed income securities	\$ -	\$ 136,151	\$ -	\$ 136,151
Total Investments, at fair value	\$ -	\$ 136,151	\$ -	\$ 136,151

For the years ended October 31, 2015 and 2014, there were no transfers between Levels 1 or 2.

Note 8. Transition to IFRS

This note summarizes the effect of the Plan's transition to IFRS.

(a) First-time adoption of IFRS

The adoption of IFRS requires the application of IFRS 1, which provides guidance for an entity's initial adoption of IFRS. IFRS 1 generally requires retrospective application of IFRS effective at the end of an entity's first annual IFRS reporting period. However, IFRS 1 also provides certain optional exemptions and mandatory exceptions to this retrospective treatment.

The Plan has elected to apply one optional exemption and designate its Investments, at fair value as FVTPL at the transition date (November 1, 2013). Investments, at fair value were previously carried at fair value under Canadian GAAP as required by Accounting Guideline 18, Investment Companies. This designation did not have any effect on the Plan's financial statements on adoption of IFRS.

The Plan has not elected to apply any other optional exemptions under IFRS 1.

IFRS 1 does not permit changes to estimates that have been made previously. Estimates used in the preparation of the Plan's opening IFRS statement of financial position, and other comparative information restated to comply with IFRS, are consistent with those made previously under Canadian GAAP.

(b) Changes in accounting policies

In accordance with IAS 32 "Financial Instruments – Presentation", the Subscribers' deposits are classified with other amounts owing to subscribers and beneficiaries, renamed Net Assets Attributable to Subscribers and Beneficiaries. The amounts were previously presented as liabilities under Canadian GAAP.

The adoption of IFRS did not result in any other changes to the accounting policies of the Plan as compared with its most recent annual financial statements prepared under Canadian GAAP. Aside from the reclassification of Subscribers' deposits, the adoption of IFRS had no other effect on the presentation or measurement of the assets, liabilities, total equity, income or expenses of the Plan.

(c) Reconciliations of Net assets and Comprehensive Income.

	October 31, 2014	November 1, 2013
Net assets available for education assistance payments under Canadian GAAP	\$ 79,646	\$ 103,005
Reclassification of subscribers' deposits	28,633	46,918
Net assets attributable to subscribers and beneficiaries under IFRS	\$ 108,279	\$ 149,923

The adoption of IFRS had no effect on the Net Income and Comprehensive Income Attributable to Subscribers and Beneficiaries or the Statements of Cash Flow. As such, no reconciliation has been provided.
