### CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Certain portions of the Management Report of Fund Performance, including but not limited to, “Results of Operations” and “Recent Developments”, may contain forward-looking statements about the Plan, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” and similar forward-looking expressions or negative versions thereof.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Plan action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties and assumptions about the Plan and economic factors. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Plan. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of important factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

# Management Report of Fund Performance

## Introduction

This annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Canadian Scholarship Trust Individual Savings Plan (“Plan”). A copy of the annual financial statements can be obtained on request, and at no cost, by visiting our website at [www.cst.org](http://www.cst.org) or SEDAR at [www.sedar.com](http://www.sedar.com), or by calling our customer service area at 1-877-333-7377, or by writing to us at 2225 Sheppard Avenue East, Suite 600, Toronto, Ontario M2J 5C2.

The Canadian Scholarship Trust Foundation, as the Plan sponsor, and C.S.T. Consultants Inc., as the Investment Fund Manager, view corporate governance and compliance as important contributors to overall corporate performance and long-term investment returns, and as such we support the proxy voting guidelines established by our investment managers. Investment restrictions contained in Canadian Securities Administrators’ policy, as well as the Foundation’s investment policy, result in the Plan primarily investing in federal and provincial government fixed income securities. As a result, proxy voting is not applicable at this time.

## Investment Objective and Strategy

The Plan invests in a prudent manner, with a focus over the long term to protect your principal and deliver a positive return on your investment. The Plan invests primarily in fixed income securities issued by the Canadian federal or provincial governments, as well as money market securities issued by Canadian chartered banks and federally or provincially licensed trust and loan companies.

McLean Budden Limited manages the Plan’s assets and focuses on strategies where value can be added on a sustainable basis while meeting the short to medium-term cash flow requirements of the Plan.

## Risk

The overall risk of the Plan remains as described in the prospectus. There were no material changes to the Plan over the financial year that affected the level of risk.

## Results of Operation

For 2011, the Plan’s rate of return, net of fees, was 1.7% compared to the investment policy benchmark (“benchmark”) return of 2.7% and the broad-based DEX Short-Term Government Bond Index return of 3.5%. The DEX Short-Term Government Bond Index (“Index”) is a broad measure of Canadian investment grade fixed income securities, issued by the Government of Canada, including Crown Corporations and provincial governments, with maturities from 1 to 5 years. The Plan’s return is after the deduction of fees and expenses of 1.3%, while the benchmark and broad-based index returns do not include any costs of investing such as fees, expenses and commissions.

Given the structure of the Plan’s liabilities, the composition of the Plan’s assets are managed to meet the short term cash flow requirements of Planholders. As a result, the benchmark for this Plan is blended and comprised of 70% DEX Short-Term Government Bond Index, and 30% DEX 91-Day Treasury-Bill Index. The DEX 91-Day Treasury Bill Index is based upon the average daily yield of 91-Day Treasury-Bills. In comparison to the broad-based Index, the Plan’s current asset mix requires a higher allocation of lower yielding money market securities to best meet its short-term obligations to Planholders.

Throughout 2011, money market yields remained relatively unchanged as the Bank of Canada maintained its policy overnight rate at 1.00%, whereas, both federal and provincial government bonds continued to post strong gains. Early in 2011, government bond yields increased across all maturities and credit spreads on corporate bonds narrowed. As concerns over the European sovereign debt crisis and the slow pace of the U.S. economic recovery increased, investors retreated to the safety and quality of Canadian government bonds in the latter part of the year. This drove down yields on government bonds with medium and longer-term maturities. Our investment managers capitalized on these market opportunities and maintained overweight positions in short and medium-term government bonds versus money market securities.

The Plan’s overall asset mix did not change significantly from the previous period, as assets are managed to meet short term cash outflow requirements. At October 31, 2011, 31.9% of the Plan assets were invested in Cash and Money Market Securities and 68.1% in Short and Mid-Term Bonds.

## Recent Developments and Other Information

Recently, investor confidence has been impacted by the continued uncertainty within the global economy. The ongoing struggle within the European Union to stabilize the economies of Greece, Italy and Spain continues to place stress on economies both within and outside the region. Although a rescue plan was eventually agreed upon in October 2011, financial market concerns about the potential global recession continue.

During 2011, the U.S. continued to implement monetary programs that put downward pressure on long-term interest rates, in an effort to maintain the economy’s positive growth. The U.S. Federal Reserve Board has indicated that it will continue to support economic momentum and growth by maintaining low interest rates through mid-2013. U.S. economic growth is expected to gradually improve to 2% in the latter half of 2012 and then rebound closer to 3% in 2013, as households slowly reduce their debt loads within a subdued labour market. In addition, China’s growth in the third quarter showed signs of slowing momentum at 9.1%.

Although Canada's economy contracted by 0.5% in the second quarter, it improved to an annualized growth of 3.5% in the third quarter of 2011 on improved exports and strong residential construction. However, the intensifying structural adjustments within European countries and an uneven economic recovery in the U.S. will continue to place downward pressure on consumer and business confidence and Canadian GDP growth in the fourth quarter of 2011 and into 2012.

Central banks around the world continue to maintain interest rates at low levels in attempts to keep the global recovery on track. In October 2011, the Bank of Canada indicated that it will likely refrain from raising interest rates until the latter part of 2012 given the concerns over the European debt crisis and the slow growing U.S. economy.

Looking beyond 2011, as market volatility subsides, market observers expect that Canada's economy will experience a cautious recovery, with growth momentum increasing in 2013 alongside gradual improvements in the U.S. economy. With continued low interest rates, economists are looking to strong business investment and improved household expenditures, rather than government expenditures and net exports, to drive economic growth. At the same time, the unemployment rate is expected to increase in early 2012 and then slowly decline to 7.2% by year end in an environment of low and relatively stable core inflation.

We are confident that our investment strategy and conservative management approach will continue to provide value. Our goal, as always, is to provide safety of principal and deliver competitive returns for our contributors and beneficiaries.

#### ***Future Accounting Standards***

In February 2008, the Canadian Accounting Standards Board ("AcSB") confirmed that the use of International Financial Reporting Standards ("IFRS") will be required for publicly accountable enterprises. In December 2011, the AcSB amended the deadline for adoption of IFRS by certain qualifying investment funds to extend the adoption date to years beginning on or after January 1, 2014. Therefore, IFRS will replace Canadian GAAP and become effective for the Plan's interim and annual financial statements relating to the fiscal year ending October 31, 2015. We are taking the following steps to transition to IFRS:

- Identification of areas where changes in disclosure will be required under IFRS;
- Identification of operational areas impacted by the adoption of IFRS;
- Identification of major differences between current accounting policies and IFRS;
- Assessment of current reporting systems and their readiness for IFRS implementation; and
- Implementation of an IFRS transition plan.

## Financial and Operating Highlights (with comparative figures)

The following table shows key financial data for the Plan and is intended to help you understand the financial results for the past five fiscal years ended October 31.

(\$ thousands)	2011	2010	2009	2008	2007
<b>Statement of Net Assets</b>					
Total Assets	\$ 10,365	\$ 9,238	\$ 9,168	\$ 9,088	\$ 8,254
Net Assets	3,739	3,533	3,691	3,633	3,141
% Change of Net Assets	5.8%	(4.3)%	1.6%	15.7%	12.6%
<b>Statement of Investment Operations</b>					
Net Investment Income	\$ 196	\$ 147	\$ 263	\$ 249	\$ 207
<b>Statement of Changes in Net Assets</b>

% Change in the total number of units	20.8%	11.9%	5.1%	8.9%	7.9%

## Management Fees

### Administration Fees

An administration fee of \$110 thousand comprising Plan administration and processing fees and financial reporting expenses was paid to the Canadian Scholarship Trust Foundation, the sponsor and administrator of the Plan, in accordance with contributors' Education Savings Plan Agreements. The administration of the Plan includes processing and call centre services related to new agreements, Government Grants, plan modifications, terminations, maturities and Education Assistance Payments ("EAPs"). The annual administration fee is calculated as 1% of the total amount of Principal, Government Grants and income in the contributors' accounts, which is paid monthly.

The Foundation has delegated certain administrative and distribution functions to its wholly-owned subsidiary, C.S.T. Consultants Inc., which is registered as the Plan's Investment Fund Manager in Ontario and Scholarship Plan Dealer under securities legislation of each of the provinces and territories of Canada in which it operates to sell scholarship plans. C.S.T. Consultants Inc. is the exclusive distributor of the Canadian Scholarship Trust Plans.

In exchange for its administrative services, C.S.T. Consultants Inc. receives an amount equal to the administration costs incurred plus a percentage of such costs from the Foundation. The administration services agreement is renewable on an annual basis.

### Portfolio Management Fees

The Plan's annual investment management fee paid to the portfolio managers is 0.13% of the weighted average monthly net assets. The portfolio managers provide investment advisory and discretionary managed account services with respect to purchasing, selling and dealing in securities.

Included in the Plan's portfolio management fees is an allocation for the services of Greystone Managed Investments Inc., an investment management firm and wholly-owned subsidiary of Greystone Capital Management Inc. ("Greystone") in relation to the Government Grants asset pool. As at October 31, 2011, two directors of the Foundation were members of the Board of Greystone. These directors did not have any beneficial ownership of Greystone equity. The directors do not participate in any of the Foundation's Board deliberations concerning the investment management of the Plan, nor do they vote on any resolutions recommended by the Investment Committee of the Foundation. The portfolio management fees in the Statements of Investment Operations include fees paid or payable to Greystone Managed Investment Inc. of \$1 thousand (2010 – \$1 thousand).

### Trustee and Custodian Fees

The Plan pays trustee and custodian fees to RBC Dexia Investor Services Trust to settle all investment trades and disburse fees, EAPs and other amounts in accordance with the terms of the Plan Agreement. For 2011 these fees charged to the Plan amounted to \$5 thousand.

## Summary of Plan Investment Portfolio

The Plan's Total Portfolio Assets are comprised of the principal and accumulated investment income on all education savings plan agreements that have not reached their maturity date. The income earned on the Plan's pre-maturity assets is the main component in determining the value of EAPs to be paid to beneficiaries. Government Grant assets and related investment income are specific to each beneficiary. Any payments to beneficiaries from Government Grant assets are treated as separate payments and not included in EAP values paid out. As a result, the Plan's Total Portfolio Assets as presented reflect the pre-maturity assets and does not include the allocation of assets from the Government Grants belonging to this Plan.

The following chart illustrates the Plan's Total Portfolio assets by appropriate investment categories.

### Asset Mix (as at October 31, 2011)

The Individual Savings Plan is a self-determined plan. The following table details the long positions in the Plan. The Plan is prohibited from holding short positions in securities.

Issuer			Fair Value (\$ 000's)	% of Plan Portfolio Assets
Government of Canada	1.50%	01 Dec 2012	573	8.7%
Government of Canada	3.75%	01 Jun 2012	498	7.6%
Province of Quebec	5.50%	01 Dec 2014	492	7.5%
Province of Ontario	3.25%	08 Sep 2014	420	6.4%
Province of Ontario	4.75%	02 Jun 2013	348	5.4%
Province of Ontario	5.38%	02 Dec 2012	345	5.2%
Government of Canada	2.50%	01 Jun 2015	292	4.4%
Government of Canada	3.50%	01 Jun 2013	286	4.4%

Canada Housing Trust	4.10%	15 Dec 2018	45	0.7%

**Top long positions as a percentage of Plan portfolio assets** **68.1%**

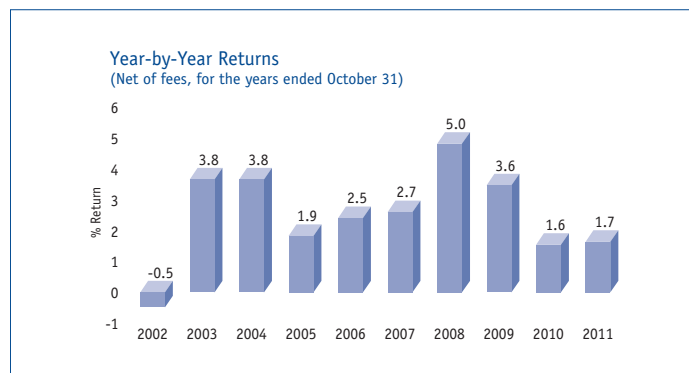

## Past Performance

Our investment philosophy has always been to safeguard our contributors' investments while providing stable and consistent returns.

Past performance of the Plan is set out in the following chart and the annual compound returns table and is based on the growth in assets over the term of the Plan to maturity. The returns presented are based on the income earned on the Plan's investment portfolio only and do not reflect the investment income or allocation of assets from the Government Grants. Investment returns have been calculated using market values and time-weighted cash flows during the periods. Total expenses incurred by the Plan, including administration, portfolio management, custody and trustee fees have been deducted and only net returns are displayed in each period. Past returns of the Plan do not necessarily indicate how it will perform in the future.

### Year-by-Year Returns

The following bar chart illustrates the Plan's annual performance in each of the past ten years to October 31, 2011. The chart illustrates in percentage terms how much an investment made on the first day of each financial year would have increased or decreased by the last day of each financial year:

### Annual Compound Returns

The following table illustrates the Plan's annual compounded returns, for the periods shown ended on October 31, 2011:

The blended benchmark (the "Benchmark") is composed of:

70%	DEX Short-Term Government Bond Index*
30%	DEX 91-Day Treasury Bill Index*

The broad-based index is the DEX Short-Term Government Bond Index.

	Period			
	1 Year	3 Years	5 Years	10 Years
<b>Net Plan Return</b>	<b>1.7</b>	<b>2.3</b>	<b>2.9</b>	<b>2.6</b>
<b>Benchmark*</b>	<b>2.7</b>	<b>3.3</b>	<b>4.0</b>	<b>3.9</b>
<b>Broad-based index: DEX</b>				
<b>Short-Term Government</b>				
<b>Bond Index*</b>	<b>3.5</b>	<b>4.4</b>	<b>4.9</b>	<b>4.5</b>

\*Note: Investors cannot invest in the index without incurring fees, expenses and commissions, which are not reflected in the index returns.

# Management's Responsibility for Financial Reporting

The accompanying financial statements of Canadian Scholarship Trust Individual Savings Plan (the "Plan") are prepared by management and are approved by the Board of Directors of Canadian Scholarship Trust Foundation (the "Foundation"). Management is responsible for the information and representations contained in these financial statements. The Board of Directors is responsible for reviewing and approving the financial statements and overseeing management's performance of its financial reporting responsibilities.

The Foundation, through C.S.T. Consultants Inc., a wholly-owned subsidiary which administers the Plan, maintains appropriate processes to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with Canadian generally accepted accounting principles and include certain amounts that are based on estimates and judgments. The significant accounting policies, which management believes are appropriate for the Plan, are described in Note 2 to the financial statements.

Deloitte & Touche LLP is the external auditor of the Plan. It has audited the financial statements in accordance with Canadian generally accepted auditing standards to enable it to express to the Board of Directors and Members of the Foundation its opinion on the financial statements. Its report is set out below.

**Sherry J. MacDonald, CA**  
President and Chief Executive Officer

**Joe Spagnuolo, CA**  
Chief Financial Officer and Treasurer

Toronto, Ontario

## Independent Auditor's Report

To the Board of Directors and Members of the Canadian Scholarship Trust Foundation

We have audited the accompanying financial statements of Canadian Scholarship Trust Individual Savings Plan, which comprise the statements of net assets available for education assistance payments as at October 31, 2011 and 2010, and the statements of investment operations, changes in net assets available for education assistance payments and cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian generally accepted accounting principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Canadian Scholarship Trust Individual Savings Plan as at October 31, 2011 and 2010 and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with Canadian generally accepted accounting principles.

## Note 1. Nature of Operations

The Canadian Scholarship Trust Individual Savings Plan (“Individual Savings Plan” or the “Plan”) is a self-determined Education Savings Plan that was established on October 1, 1999. The objective of the Individual Savings Plan is to assist parents and others to save for the post-secondary education of children. The Individual Savings Plan is managed and distributed by C.S.T. Consultants Inc. (“C.S.T.C.”), a wholly-owned subsidiary of the Canadian Scholarship Trust Foundation (the “Foundation”). The Foundation was created to encourage and promote post-secondary education by making education savings plans available to Canadian residents.

Payments are made by a contributor to an account maintained by the depository trustee on behalf of a beneficiary. Deductions of enrolment fees are made from the contributor’s principal deposit balance. The principal accumulated over the term of the contributor’s education savings plan agreement (“Agreement”) is returned in whole or in part at any time at the request of the contributor. A beneficiary is deemed to be a qualified student upon receipt by the Foundation of evidence of enrolment in a qualifying educational program at an eligible institution. Education assistance payments paid to qualified students from the Individual Savings Plan are determined by the contributor and are paid from the income earned on the contributor’s principal.

There are a number of government grants that may be available to beneficiaries:

- i. The Canada Education Savings Grant Program (“CESG”) is a grant from the Federal Government whereby Registered Education Savings Plans (“RESPs”) receive grant amounts dependent on family income;
- ii. Any child born on or after January 1, 2004, and who also qualifies for the National Child Benefit Supplement may be eligible for the Canada Learning Bond (“CLB”);
- iii. Any child born in the province of Alberta on or after January 1, 2005, may be eligible for the initial Alberta Centennial Education Savings Grant (“ACES”). Subsequent grants may be paid to all children attending school in Alberta at certain eligible ages; and
- iv. The Québec Education Savings Incentive (“QESI”) is available for beneficiaries who are under eighteen years of age and reside in Québec on December 31 of each year. The amount of QESI to be received by a beneficiary will depend on annual family income.

The Individual Savings Plan receives the CESG, CLB, ACES and QESI (collectively “Government grants”), which are paid directly into a beneficiary’s RESP and invests these funds in accordance with the Plan’s investment policies. The Government grants along with investment income earned thereon are paid to qualified students.

Agreements are registered with appropriate government authorities if all required information is provided, and once registered are subject to the rules for RESPs under the *Income Tax Act* (Canada). The current tax legislation provides that income credited on contributors’ principal is not taxable income of the contributor unless withdrawn early. The deposits are not deductible for income tax purposes and are not taxable when returned to the contributor. Payments made to a qualified student will constitute taxable income of that student in the year that the payments are made.

## Note 2. Significant Accounting Policies

### (a) Generally accepted accounting principles

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (“Canadian GAAP”).

### (b) Future accounting standards

In February 2008, the Canadian Accounting Standards Board (“AcSB”) confirmed that the use of International Financial Reporting Standards (“IFRS”) will be required for publicly accountable enterprises. In December 2011, the AcSB amended the deadline for adoption of IFRS by certain qualifying investment funds to extend the adoption date to years beginning on or after January 1, 2014. Therefore, IFRS will replace Canadian GAAP and become effective for the Plan’s interim and annual financial statements relating to the fiscal year ending October 31, 2015. Management is in the process of developing a transition plan, which will include identifying differences between the Plan’s current accounting policies and those it expects to apply under IFRS, as well as any accounting policy and implementation decisions and their resulting impact, if any, on the financial statements of the Plan.

### (c) Investment valuation

Investments, at fair value include the following types of securities: bonds, money market securities and variable rate securities.

Bonds and money market securities are valued using bid prices at year end. In the event that quoted market prices are not available, the fair values presented are estimated using present value or other valuation techniques.

Variable rate securities are hybrid financial debt instruments issued by governments, Canadian chartered banks and licensed trust and loan companies that have embedded components that change the risk/return profile of the security. Included in this class are structured notes that are debt instruments whose returns are based on indices or underlying assets rather than typical interest payments. Variable rate securities are carried at fair values using external pricing models to value their components.

Note 6 provides further guidance on the fair value measurements.

### (d) Investment transactions and income recognition

Investment transactions are accounted for on a trade date basis. Interest income on investments is recognized using the effective interest method. Realized gains (losses) on the sale of investments and change in unrealized gains (losses) on investments are calculated with reference to the average cost of the related investments and are recognized in the period that such gains (losses) occur.

### (e) Contributors’ deposits and enrolment fees

Contributors’ deposits reflect amounts received from contributors and do not include future amounts receivable on outstanding Agreements. An enrolment fee is required as part of the initial contribution under each education savings plan Agreement. Enrolment fees collected during the reporting period are paid to C.S.T.C.

# Notes to the Financial Statements (continued)

October 31, 2011 and 2010 (in thousands of dollars)

## Note 2. Significant Accounting Policies (continued)

### (f) Income taxes

Individual Savings Plan is exempt from income taxes under Section 146.1 of the *Income Tax Act* (Canada).

### (g) Cash and cash equivalents

Cash and cash equivalents include short-term investments with a purchase date to maturity of 90 days or less.

### (h) Use of estimates

In preparing the financial statements, management is required to use estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the current estimates. Significant estimates included in these financial statements relate to valuation of Level 3 financial instruments as discussed in Note 6.

### (i) Prior year adjustments

The Plan has restated prior year comparative balances relating to Government grants repayable to Human Resources and Skill Development Canada ("HRSDC") on principal returned to contributors, which was previously recorded as capital. The effect to the Statement of Net Assets Available for Education Assistance Payments, was to increase Accounts payable, accrued liabilities and unclaimed contributors' funds by \$121 and decrease Government grants as at October 31, 2010, by the same amount.

## Note 3. Related Party Transactions

### (a) Distribution and Administration of the Individual Savings Plan

The Foundation, as the Plan sponsor, has appointed C.S.T.C. as the Investment Fund Manager to administer and distribute the Individual Savings Plan. The distribution agreement is renewable annually on November 1. Administration fees (comprising Plan administration and processing fees and Financial reporting expenses) are paid to the Foundation. Administration fees are annual fees of 1% of the total amount of principal, Government grants and income earned thereon. Enrolment fees are paid to C.S.T.C.

### (b) Other Related Party Transactions

The Foundation retains the services of Greystone Managed Investments Inc., an investment management firm and wholly-owned subsidiary of Greystone Capital Management Inc. ("Greystone"). As at October 31, 2011, two directors of the Foundation were members of the Board of Directors of Greystone. Total ownership of Greystone equity held by the directors is nil (2010 – 0.32%). The directors do not participate in any of the Foundation's Board deliberations concerning the investment management of the Plan, nor do they vote on any resolutions recommended by the Investment Committee of the Foundation.

Portfolio management fees in the Statements of Investment Operations include fees paid or payable to Greystone of \$1 (2010 – \$1). There were no balances included in Accounts payable, accrued liabilities and unclaimed contributors' funds in the Statements of Net Assets Available for Education Assistance Payments owing to Greystone as at October 31, 2011 or 2010.

All related party transactions are in the normal course of business and are measured at the exchange amount.

## Note 4. Investment Holdings

The investment holdings are disclosed in Schedule I – Statement of Investment Portfolio and the related Appendix I to the schedule, which are explained below.

The Government grants received from HRSDC are collectively invested together with other C.S.T.C. administered plans. The principal and income received are separately tracked for each contributor's Agreement. The portfolio holdings are allocated across all plans based on the proportion of principal and income attributable to Agreements within each plan (see Appendix I to Schedule I).

## Note 5. Risks Associated with Financial Instruments

In the normal course of business the Plan may be exposed to a variety of risks arising from financial instruments. The Plan's exposures to such risks are concentrated in its investment holdings and are related to market risk (which includes interest rate risk and other price risk), credit risk, liquidity risk and currency risk.

The Plan's risk management process includes monitoring compliance with the Plan's investment policy. The Plan manages the effects of these financial risks to the Plan portfolio performance by retaining and overseeing professional external investment managers. The investment managers regularly monitor the Plan's positions, market events and manage the investment portfolio within the constraints of the investment policy.

### (a) Market risk

#### i. Interest rate risk

Interest rate risk is the risk of a decrease in the Plan's yield on interest-bearing investments as a result of fluctuations in market interest rates. There is an inverse relationship between changes in interest rates and changes in the fair value of bonds. This risk is actively managed using duration, yield curve analysis, sector and credit selection. There is reduced risk to interest rate changes for cash and cash equivalents due to their short-term nature.

The Plan's holdings of debt instruments by maturity are as follows:

Debt Instruments by Maturity Date	% of Total Investment Fund	
	2011	2010
Less than 1 year (including short-term investments)	34%	33%
1-3 years	32%	36%
3-5 years	22%	8%
Greater than 5 years	12%	23%
<b>Total debt instruments</b>	<b>100%</b>	<b>100%</b>

# Notes to the Financial Statements (continued)

October 31, 2011 and 2010 (in thousands of dollars)

## Note 5. Risks Associated with Financial Instruments (continued)

### (a) Market risk (continued)

#### i. Interest rate risk (continued)

As at October 31, 2011, if prevailing interest rates had increased or decreased by 1%, the Total Investment Fund amount of \$10,106 (2010 – \$9,144) as per the Statement of Investment Portfolio would have decreased or increased by \$216 (2010 – \$297). This 1% change assumes a parallel shift in the yield curve with all other variables held constant. In practice, the actual trading results may differ materially.

#### ii. Other price risk

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, other than those arising from interest rate risk. Factors specific to an individual investment, its issuer or all factors affecting all instruments traded in a market or market segment affect other price risk. The asset class that is most impacted by other price risk is variable rate securities, which represents 0.1% (2010 – 1.0%) of the Total Investment Fund amount as at October 31, 2011. For these securities, positive returns are capped and the return of principal at maturity is protected from any negative performance. These features limit volatility and mitigate the downward impact on the value of these securities.

As at October 31, 2011, if underlying indices prices had increased or decreased by 1%, with all other variables held constant, the Total Investment Fund amount as per Schedule I – Statement of Investment Portfolio would have increased or decreased by approximately \$nil (2010 – \$0.5). In practice, the actual trading results may differ materially.

### (b) Credit risk

Credit risk refers to the ability of the issuer of debt securities to make interest payments and repay principal. The Plan's portfolio is comprised of bonds issued or guaranteed by federal or provincial governments along with corporate debt instruments with a minimum approved credit rating as set by Canadian Securities Administrators, currently A-low. Individual Savings Plan has a concentration of investments in government and government guaranteed bonds, which are considered to be high credit quality investments thereby moderating credit risk.

The Plan's credit risk exposure is listed below:

Credit rating	2011		2010	
	% of Total Investment Fund	Amount (in thousands)	% of Total Investment Fund	Amount (in thousands)
AAA	63%	\$ 6,411	62%	\$ 5,641
AA/AAH/AAL	6%	588	7%	679
A/AH/AL	10%	997	11%	983
R-1	20%	2,047	20%	1,873
Short-term unrated	1%	63	0%	(32)
<b>Total Investment Fund</b>	<b>100%</b>	<b>\$ 10,106</b>	<b>100%</b>	<b>\$ 9,144</b>

The October 31, 2010 comparative figures have been reclassified to conform to the classification adopted in 2011.

The Dominion Bond Rating Service ("DBRS") was the primary source for obtaining credit ratings. Secondary sources used include Standard & Poor's Financial Services LLC and Moody's Investors Service, Inc.

### (c) Liquidity risk

Liquidity risk is the risk that the Plan may not be able to meet its obligations on time. The Plan's exposure to liquidity risk is concentrated in principal repayments to subscribers and Education Assistance Payments to beneficiaries. The Plan primarily invests in securities that are traded in the active markets and can be readily sold. The Plan retains sufficient cash and cash equivalents positions to meet liquidity requirements by utilizing cash forecasting models that reflect the maturity distribution of Contributors' deposits and accumulated income. All other financial liabilities are short term and due within one year.

### (d) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Plan is not exposed to currency risk as it holds only Canadian securities.

## Note 6. Fair Value of Financial Instruments

Investments, at fair value, Cash and cash equivalents and Short-term investments are carried at fair value. The carrying values of other financial instruments such as Accrued interest and other receivables, Receivables for securities sold, Government grants receivable, Accounts payable, accrued liabilities and unclaimed contributors' funds, Payables for securities purchased and Contributors' deposits approximate their fair values as these financial instruments are short-term in nature.

Fair value represents the amount at which a financial instrument could be exchanged in an arm's-length transaction between willing parties under no compulsion to act and is best evidenced by a quoted bid price in an active market, if one exists.

The following table presents the Plan's financial instruments carried at fair value hierarchy set out in CICA Handbook Section 3862 *Financial Instruments – Disclosures*:

- "Level 1" financial instruments are valued using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- "Level 2" financial instruments are valued using observable inputs other than quoted prices included in Level 1.
- "Level 3" financial instruments are valued using unobservable inputs for the asset or liability.

### Assets Measured at Fair Value as of October 31, 2011

	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 118	\$ –	\$ –	\$ 118
Short-term Investments	–	1,993	–	1,993
Fixed Income Securities	–	7,985	–	7,985
Variable Rate Securities	–	–	10	10
<b>Total Investment Fund</b>	<b>\$ 118</b>	<b>\$ 9,978</b>	<b>\$ 10</b>	<b>\$ 10,106</b>

# Notes to the Financial Statements (continued)

October 31, 2011 and 2010 (in thousands of dollars)

## Note 6. Fair Value of Financial Instruments (continued)

### Assets Measured at Fair Value as of October 31, 2010

	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents \$	63	\$ -	\$ -	\$ 63
Short-term Investments	-	1,744	-	1,744
Fixed Income Securities	-	7,287	-	7,287
Variable Rate Securities	-	-	50	50
<b>Total Investment Fund</b>	<b>\$ 63</b>	<b>\$ 9,031</b>	<b>\$ 50</b>	<b>\$ 9,144</b>

The Plan's financial instruments classified as Level 3 represent the Plan's investment in Equity Linked Notes, which are principal protected by a major Canadian bank (DBRS rating "AA"). Equity Linked Notes are hybrid securities comprised of a bond and an option. The price of the variable rate securities are based on external pricing models provided from third party brokers. These valuations are derived from the information on similar publicly traded bonds and options using standard pricing methodology. Such techniques include assumptions related to the assessment and quantification of market, credit, and liquidity risks referred to in Note 5. There are no reasonable alternative assumptions.

#### Level 3 – Variable Rate Securities

	2011	2010
Opening Balance	\$ 50	\$ 65
Sales	(39)	(16)
Increase in Unrealized Gains/Losses	(1)	1
<b>Closing Balance</b>	<b>\$ 10</b>	<b>\$ 50</b>
