Notes to the Financial Statements

Six months ended April 30, 2012 and 2011 (Unaudited, in thousands of dollars)

Note 1. Nature of Operations

The Canadian Scholarship Trust Group Savings Plan 2001 (“Group Savings Plan 2001” or the “Plan”) is a Pooled Education Savings Plan that was established on May 1, 2001. The objective of the Group Savings Plan 2001 is to assist parents and others to save for the post-secondary education of children. The Group Savings Plan 2001 is managed and distributed by C.S.T. Consultants Inc. (“C.S.T.C.”), a wholly-owned subsidiary of the Canadian Scholarship Trust Foundation (the “Foundation”). The Foundation was created to encourage and promote post-secondary education by making education savings plans available to Canadian residents.

Payments are made by a contributor to an account maintained by the depository trustee on behalf of a beneficiary. Deductions of enrolment fees and account maintenance fees are made from the contributor’s contributions. The principal accumulated over the term of the contributor’s education savings plan agreement (“Agreement”) is returned to the contributor when:

- i. the Agreement matures and the beneficiary is a qualified student eligible to receive the first education assistance payment,
- ii. the Agreement matures and the beneficiary is not yet a qualified student, in which case the beneficiary will forfeit all Government grants (as defined below), or
- iii. the Agreement is terminated.

The investment income earned on the contributor’s principal is transferred to the scholarship pool when the Agreement matures and is used to provide education assistance payments to qualified students. A beneficiary is deemed to be a qualified student upon receipt by the Foundation of evidence of enrolment in a qualifying educational program at an eligible institution.

There are a number of government grants that may be available to beneficiaries:

- i. The Canada Education Savings Grant Program (“CESG”) is a grant from the Federal Government whereby Registered Education Savings Plans (“RESPs”) receive grant amounts dependent on family income;
- ii. Any child born on or after January 1, 2004, and who also qualifies for the National Child Benefit Supplement may be eligible for the Canada Learning Bond (“CLB”);
- iii. Any child born in the province of Alberta on or after January 1, 2005, may be eligible for the initial Alberta Centennial Education Savings Grant (“ACES”). Subsequent grants may be paid to all children attending school in Alberta at certain eligible ages; and
- iv. The Québec Education Savings Incentive (“QESI”) is available for beneficiaries who are under eighteen years of age and reside in Québec on December 31 of each year. The amount of QESI to be received by a beneficiary will depend on annual family income.

The Group Savings Plan 2001 receives the CESG, CLB, ACES and QESI (collectively, “Government grants”), which are paid directly into a beneficiary’s RESP and invests these funds in accordance with the Plan’s investment policies. The Government grants, along with investment income earned thereon, are paid to qualified students.

Agreements are registered with appropriate government authorities if all required information is provided, and once registered are subject to the rules for RESPs under the *Income Tax Act* (Canada). The current tax legislation provides that income credited on contributors’ principal is not taxable income of the contributor, unless withdrawn early. The deposits are not deductible for income tax purposes and are not taxable when returned to the contributor. Payments made to a qualified student will constitute taxable income of that student in the year that the payments are made.

Note 2. Significant Accounting Policies

(a) Generally accepted accounting principles

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (“Canadian GAAP”).

(b) Future accounting standards

In February 2008 the Canadian Accounting Standards Board (“AcSB”) confirmed that the use of International Financial Reporting Standards (“IFRS”) will be required for publicly accountable enterprises. In December 2011, the AcSB amended the deadline for adoption of IFRS by certain qualifying investment funds to extend the adoption date to years beginning on or after January 1, 2014. Therefore, IFRS will replace Canadian GAAP and become effective for the Plan’s interim and annual financial statements relating to the fiscal year ending October 31, 2015. Management is in the process of developing a transition plan, which will include identifying differences between the Plan’s current accounting policies and those it expects to apply under IFRS, as well as any accounting policy and implementation decisions and their resulting impact, if any, on the financial statements of the Plan.

(c) Investment valuation

Investments, at fair value include the following types of securities: bonds, money market securities, variable rate securities and pooled funds.

Bonds and money market securities are valued using bid prices at period end. In the event that quoted market prices are not available, the fair values are estimated using present value or other valuation techniques.

Variable rate securities are hybrid financial debt instruments issued by governments, Canadian chartered banks and licensed trust and loan companies that have embedded components that change the risk/return profile of the security. Included in this class are structured notes that are debt instruments whose returns are based on indices or underlying assets rather than typical interest payments. Variable rate securities are carried at fair values using external pricing models to value their components.

Investments in pooled funds used to pay the Enrolment Fee Refund Entitlements (“EFR Entitlements”) referred to in Note 3(b) are valued at net asset values of the pooled funds at the valuation date, as these represent the value that would be received by the Plan from redeeming its units held in the pooled funds.

Note 9 provides further guidance on fair value measurements.

Notes to the Financial Statements (continued)

Six months ended April 30, 2012 and 2011 (Unaudited, in thousands of dollars)

Note 2. Significant Accounting Policies (continued)

(d) Investment transactions and income recognition

Investment transactions are accounted for on a trade-date basis. Interest income on investments is recognized using the effective interest method. Dividends are accrued as of the ex-dividend date. Realized gains (losses) on the sale of investments and change in unrealized gains (losses) on investments are calculated with reference to the average cost of the related investments and are recognized in the period that such gains (losses) occur. All interest income and realized gains and losses from the EFR Entitlements Asset Fund ("EFR Fund") is included in Other income in the Statements of Investment Operations.

(e) Contributors' deposits, Enrolment fees and Account maintenance fees

Contributors' deposits reflect amounts received from contributors net of enrolment fees and account maintenance fees and do not include future amounts receivable on outstanding Agreements. Enrolment fees are deducted from contributors' deposits and are collected over periods of up to thirty-two months from the date of initial deposit. Account maintenance fees are paid annually to the Foundation from contributors' deposits and are accrued throughout the year.

(f) Income taxes

Group Savings Plan 2001 is exempt from income taxes under Section 146.1 of the *Income Tax Act* (Canada).

(g) Cash and cash equivalents

Cash and cash equivalents include short-term investments with a purchase date to maturity of 90 days or less.

(h) Use of estimates

In preparing the financial statements, management is required to use estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from the current estimates. Significant estimates included in these financial statements relate to EFR Entitlements (see Note 3(b)), the valuation of Level 3 financial instruments as discussed in Note 9 and Accounts payable, accrued liabilities and unclaimed contributors' funds.

Note 3. Related Party Transactions

(a) Distribution and Administration of the Group Savings Plan 2001

The Foundation, as the Plan sponsor, has appointed C.S.T.C., as the Investment Fund Manager to distribute and administer Group Savings Plan 2001. The distribution agreement is renewable annually on November 1.

Account maintenance fees and administration fees (comprising Plan administration and processing fees and Financial reporting expenses) are paid to the Foundation. Administration fees are annual fees of ½ of 1% of the total amount of principal, Government grants and income earned thereon.

Enrolment fees are paid by contributors and deducted from their contributions. In accordance with the distribution agreement, the Foundation directs a portion of the enrolment fees collected from contributors to the EFR Fund each year in order to assist the Plan in paying EFR Entitlements when they become due. The balance of enrolment fees collected are paid to C.S.T.C. in exchange for selling the Plan.

The Foundation is responsible to pay to beneficiaries of the Plan the refunds of enrolment fees as promised. Any shortfall in the assets to meet the EFR Entitlements will be funded from the Foundation's surplus (see Note 8).

(b) Enrolment Fee Refund Entitlements

Group Savings Plan 2001 pays EFR Entitlements to the qualified beneficiaries in four instalments during the education assistance payment payout period (see (i) and (ii) below). The total amount of EFR Entitlements paid for the six-month period ended April 30, 2012, was \$186 (2011 – \$71).

As at April 30, 2012, the EFR Entitlements amount of \$93,015 (October 31, 2011 – \$87,475) presented in the Statements of Net Assets Available for Education Assistance Payments represents the average cost of the Plan's investments in the EFR Funds of \$93,015 (October 31, 2011 – \$88,492), less funds to be transferred to the Scholarship Pool of \$nil (October 31, 2011 – \$1,017) for EFR payments made to beneficiaries.

i. Agreements purchased under prospectuses dated prior to October 2, 2007

Group Savings Plan 2001 pays EFR Entitlements to the beneficiaries from the EFR Fund, which amount to 100% of enrolment fees paid for these Agreements.

As at April 30, 2012, the average cost and fair value of the Plan's investments in the EFR Fund available for the purpose of paying EFR Entitlements amounted to \$68,702 and \$63,544, respectively (October 31, 2011 – \$67,144 and \$61,446, respectively). See Appendix III to Schedule I.

ii. Agreements purchased under prospectuses dated on or after October 2, 2007

The EFR Entitlements amount is comprised of a refund of 50% of the enrolment fees paid plus a potential additional amount not to exceed the amount of surplus (if any) in the EFR Fund. Any surplus in the EFR Fund will be calculated by the Foundation as the excess, if any, of the value of assets in the EFR Fund over the actuarial valuation of enrolment fee refund obligations based on 50% of enrolment fees.

For the six-month period ended April 30, 2012, \$2,369 (2011 – \$2,393) was deposited in the EFR Fund from subscriber contributions, which is equivalent to the estimated present value of the future expected EFR Entitlements of \$100 per unit for all units sold during the year. The discount rate at October 31, 2011, of 5% (October 31, 2010 – 5%) used in determining the estimated present value was based on conservative assumptions regarding long-term investment returns for the EFR Fund.

As at April 30, 2012, the average cost and fair value of the Plan's investments in the EFR Fund available for the purpose of paying EFR Entitlements amounted to \$24,313 and \$24,931, respectively (October 31, 2011 – \$21,348 and \$21,924, respectively). See Appendix IV to Schedule I.

Notes to the Financial Statements (continued)

Six months ended April 30, 2012 and 2011 (Unaudited, in thousands of dollars)

Note 3. Related Party Transactions (continued)

(c) Special Funding Payments from the Canadian Scholarship Trust Foundation

For the six-month period ended April 30, 2012, the Foundation provided special funding payments of \$200 (2011 – nil) to the EFR Fund (see Note 8(b)).

(d) Other Related Party Transactions

The Foundation retains the services of Greystone Managed Investments Inc., an investment management firm and wholly-owned subsidiary of Greystone Capital Management Inc. (“Greystone”). As at April 30, 2012, two directors of the Foundation were members of the Board of Directors of Greystone and they did not have any equity ownership in the company. The directors do not participate in any of the Foundation’s Board deliberations concerning the investment management of the Plan, nor do they vote on any resolutions recommended by the Investment Committee of the Foundation.

Portfolio management fees in the Statements of Investment Operations include fees paid or payable to Greystone of \$485 (2011 – \$439). Included in Accounts payable, accrued liabilities and unclaimed contributors’ funds in the Statements of Net Assets Available for Education Assistance Payments are the accrued amounts owing to Greystone as at April 30, 2012 of \$339 (October 31, 2011 – \$331).

All related party transactions are in the normal course of business and are measured at the exchange amount.

Note 4. Investment Holdings

The investment holdings are disclosed in Schedule I – Statement of Investment Portfolio and the related Appendices I – IV to the schedule, which are explained below.

The Government grants received from Human Resources and Skills Development Canada are collectively invested together with other C.S.T.C. administered plans. The principal and income received are separately tracked for each contributor’s Agreement. The portfolio holdings are allocated across all plans based on the proportion of principal and income attributable to Agreements within each plan (see Appendix I to Schedule I).

Upon maturity of each Agreement, the investment income accumulated to date attributable to that Agreement is transferred to the Canadian Scholarship Group Savings Plan Trust Scholarship Pool (the “Pool”), a shared investment pool with the Group Savings Plan, another plan administered by C.S.T.C. (see Appendix II to Schedule I). From a contributor’s perspective, the income that is transferred is tracked by plan and by year of eligibility. The portfolio holdings of the Pool are allocated based on the Plan’s proportionate share of income remaining in the Pool. The income earned on the Pool is credited to the General Fund (see Note 7).

For Agreements purchased under prospectuses dated prior to October 2, 2007, investments used to fund the EFR Entitlements of the Group Savings Plan 2001 and the Group Savings Plan are managed in a separate fund (see Appendix III to Schedule 1). The EFR Fund’s holdings and income are allocated to the Plan based on its proportionate share of the EFR Entitlements.

For Agreements purchased under prospectuses dated on or after October 2, 2007, investments used to fund the EFR Entitlements of Group Savings Plan 2001 are managed in a separate EFR Fund (see Appendix IV to Schedule I).

The investment restrictions set out in National Policy 15 of the Canadian Securities Administrators do not apply to assets invested to meet the EFR Entitlements referred to in Notes 3(b) and 8.

Note 5. Risks Associated with Financial Instruments

In the normal course of business the Plan may be exposed to a variety of risks arising from financial instruments. The Plan’s exposures to such risks are concentrated in its investment holdings and are related to market risk (which includes interest rate risk and other price risk), credit risk, liquidity risk and currency risk.

The Plan’s risk management process includes monitoring compliance with the Plan’s investment policy. The Plan manages the effects of these financial risks to the Plan portfolio performance by retaining and overseeing professional external investment managers. The investment managers regularly monitor the Plan’s positions and market events, and manage the investment portfolio within the constraints of the investment policy.

(a) Market risk

i. Interest rate risk

Interest rate risk is the risk of a decrease in the Plan’s yield on interest-bearing investments as a result of fluctuations in market interest rates. There is an inverse relationship between changes in interest rates and changes in the fair value of bonds. This risk is actively managed using duration, yield curve analysis, sector and credit selection. There is reduced risk to interest rate changes for cash and cash equivalents due to their short-term nature.

The Plan’s holdings of debt instruments by maturity are as follows:

Debt Instruments by Maturity Date	% of Total Investment Fund	
	Apr 30, 2012	Oct 31, 2011
Less than 1 year (including short-term investments)	12%	8%
1-3 years	23%	31%
3-5 years	38%	36%
Greater than 5 years	25%	22%
Total debt instruments	98%	97%
Equity	2%	3%
Total Investment Fund	100%	100%

As at April 30, 2012, if prevailing interest rates had increased or decreased by 1%, the Total Investment Fund amount of \$2,181,491 (October 31, 2011 – \$2,007,276) as per Schedule I – Statement of Investment Portfolio would have decreased or increased by \$85,544 (October 31, 2011 – \$70,436). This 1% change assumes a parallel shift in the yield curve with all other variables held constant. In practice, the actual trading results may differ materially.

Notes to the Financial Statements (continued)

Six months ended April 30, 2012 and 2011 (Unaudited, in thousands of dollars)

Note 5. Risks Associated with Financial Instruments (continued)

(a) Market risk (continued)

ii. Other price risk

Other price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices, other than those arising from interest rate risk. Factors specific to an individual investment, its issuer or all factors affecting all instruments traded in a market or market segment affect other price risk. The asset classes that are most impacted by other price risk are the equity component of the EFR Fund and variable rate securities, which combined make up 4% (October 31, 2011 – 4%) of the Total Investment Fund amount as at April 30, 2012. The risk associated with the equity component of the EFR Entitlements is managed by security selection and active management by external managers within approved investment policies and manager mandates. For variable rate securities, positive returns are capped and the return of principal at maturity is protected from any negative performance. These features limit volatility and mitigate the downward impact on the value of these securities.

As at April 30, 2012, if equity and underlying indices prices had increased or decreased by 1%, with all other variables held constant, the Total Investment Fund amount as per Schedule I – Statement of Investment Portfolio would have increased or decreased by approximately \$519 (October 31, 2011 – \$517). In practice, the actual trading results may differ materially.

(b) Credit risk

Credit risk refers to the ability of the issuer of debt securities to make interest payments and repay principal. The Plan's portfolio is comprised of bonds issued or guaranteed by federal or provincial governments along with corporate debt instruments with a minimum approved credit rating as set by the Canadian Securities Administrators, currently A-low. Group Savings Plan 2001 has a concentration of investments in government and government guaranteed bonds, which are considered to be high credit quality investments thereby moderating credit risk.

The Plan's credit risk exposure is listed below:

Credit rating	Apr 30, 2012		Oct 31, 2011	
	% of Total Investment Fund	Amount (in thousands)	% of Total Investment Fund	Amount (in thousands)
AAA	60%	\$1,294,884	78%	\$1,561,412
AA/AAH/AAL	17%	381,543	14%	290,694
A/AH/AAL	19%	418,536	4%	81,497
BBB	0%	8,341	0%	7,932
R-1	1%	18,160	1%	13,145
P-2	0%	292	0%	626
Short-term unrated	0%	7,904	0%	3,050
Equity	3%	51,831	3%	48,920
Total Investment Fund	100%	\$2,181,491	100%	\$2,007,276

The Dominion Bond Rating Service ("DBRS") was the primary source for obtaining credit ratings. Secondary sources used include Standard & Poor's Financial Services LLC and Moody's Investors Services, Inc.

(c) Liquidity risk

Liquidity risk is the risk that the Plan may not be able to meet its obligations on time. The Plan's exposure to liquidity risk is concentrated in principal repayments to subscribers and Education Assistance Payments to beneficiaries including EFR Entitlements. The Plan primarily invests in securities that are traded in the active markets and can be readily sold. The Plan retains sufficient cash and cash equivalents positions to meet liquidity requirements by utilizing cash forecasting models that reflect the maturity distribution of Contributors' deposits and accumulated income. All other financial liabilities are short term and due within one year. See note 8 for an assessment of the funding of the EFR Entitlements.

(d) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Plan holds foreign equity funds as part of the EFR Fund which represent 1% (October 31, 2011 – 1%) of the Total Investment Fund. The Plan's Total Investment Fund will increase or decrease by approximately \$220 (October 31, 2011 – \$224) in response to a 1% depreciation or appreciation of the Canadian dollar. In practice the actual results may differ materially.

Note 6. Contributors' Deposits

The changes in Contributors' deposits for the six months ended April 30, 2012 and 2011 are as follows:

	Apr 30, 2012	Apr 30, 2011
Payments from contributors	\$ 132,846	\$ 126,904
Inter-plan principal transfers	(8,140)	(7,651)
Account maintenance fees	(1,491)	(1,437)
Return of principal	(12,950)	(9,596)
Net increase in Contributors' deposits	110,265	108,220
Balance, Beginning of Period	1,242,014	1,046,561
Balance, End of Period	\$1,352,279	\$1,154,781

The April 30, 2011 comparative figures have been reclassified to conform to the presentation adopted in 2012.

Note 7. General Fund and Donations from the Foundation

The Canadian Group Scholarship Savings Plan Trust (the "Group Trust") is a legal trust registered with the Canada Revenue Agency as an Education Savings Plan. Included in the Group Trust are Group Savings Plan and Group Savings Plan 2001 (the "Plans"). The General Fund is a separate account within the Group Trust and derives its income from the following sources:

- interest earned on Contributors' deposits and Accumulated interest from the date of maturity to the date the funds are paid to qualified students as Education Assistance Payments;

Notes to the Financial Statements (continued)

Six months ended April 30, 2012 and 2011 (Unaudited, in thousands of dollars)

Note 7. General Fund and Donations from the Foundation (continued)

- ii. interest earned on the interest forfeited when a contributor's plan is terminated prior to maturity;
- iii. income not collected by beneficiaries before the expiry of the benefit period; and
- iv. unclaimed principal and income payments.

According to the trust indenture, the General Fund may be used to subsidize Education Assistance Payments for qualified students to either of the Plans within the Group Trust.

Donations from the Foundation represent a discretionary pool of funds shared between the Plans. These funds are used to supplement Education Assistance Payments when the General Fund is depleted. The amount is allocated annually between the Plans according to the payout forecast in each of the Plans.

Note 8. Enrolment Fee Refund Entitlements Valuations

On an annual basis a valuation of EFR Entitlements is conducted for financial reporting purposes by an external actuary. This valuation is used to estimate the current status of funding for EFR Entitlements based on expected long-term investment rates. In addition, actuarial funding valuations are performed at least every two years to assess the adequacy of assets and the Foundation's funding policy to meet EFR Entitlements in future years. This valuation uses more conservative assumptions regarding long-term investment returns to better ensure that obligations for future EFR Entitlements will be fully funded.

(a) Financial Reporting Valuation

The actuarial assumptions used in determining the valuation of EFR Entitlements reflect management's best estimate of future payments to beneficiaries and involve both economic and non-economic assumptions. The non-economic assumptions include considerations such as termination of Agreements prior to maturity and participation of eligible students in the collection of education assistance payments. The primary economic assumption is the discount rate, which is set at the expected long-term investment return of the EFR Fund as at October 31, 2011 of 6.7% (October 31, 2010 – 6.5%) based on the investment policy approved by the Board. As underlying conditions change over time, actuarial assumptions may also change, which could cause a material change in the present value of the EFR Entitlements.

i. Agreements purchased under prospectuses dated prior to October 2, 2007

The funded status of the EFR Entitlements at October 31 was:

	2011	2010
Present value of EFR Entitlements	\$ 103,328	\$ 90,890
Fair value of EFR Fund ¹	61,446	61,375
Underfunded portion of EFR Entitlements	\$ 41,882	\$ 29,515

¹ Average cost of assets in EFR Fund was \$67,144 (2010 – \$65,349)

A 1% decrease in the discount rate used will increase the present value of EFR Entitlements by \$10,291 (2010 – \$10,862).

ii. Agreements purchased under prospectuses dated on or after October 2, 2007

The funded status of the EFR Entitlements at October 31 was:

	2011	2010
Present value of EFR Entitlements	\$ 20,670	\$ 13,959
Fair value of EFR Fund ¹	21,924	16,941
Overfunded portion of EFR Entitlements	\$ (1,254)	\$ (2,982)

¹ Average cost of assets in EFR Fund was \$ 21,348 (2010 – \$15,821)

A 1% decrease in the discount rate used will increase the present value of EFR Entitlements by \$3,157 (2010 – \$2,333).

(b) Actuarial Funding Valuation

An actuarial valuation was completed based on assets and obligations as at October 31, 2011. The long-term investment return used was 3.7%, which resulted in an unfunded liability of \$77,000 for Agreements purchased under prospectuses dated prior to October 2, 2007, and \$10,000 for Agreements purchased under prospectuses after this date. The Foundation is responsible to pay to beneficiaries of the Plan the refunds of enrolment fees as promised. A funding policy was established by the Foundation to ensure assets are sufficient to meet future EFR Entitlements. Any shortfall in the assets to meet the EFR Entitlements will be funded from the Foundation's surplus.

The next actuarial funding valuation will be performed in 2014 based on assets and obligations as at October 31, 2013.

Note 9. Fair Value of Financial Instruments

Investments, at fair value, Cash and cash equivalents and Short-term investments are carried at fair value. The carrying values of other financial instruments such as Accrued interest and other receivables, Receivables for securities sold, Government grants receivable, Accounts payable, accrued liabilities and unclaimed contributors' funds, Payables for securities purchased and Contributors' deposits approximate their fair values as these financial instruments are short term in nature.

Fair value represents the amount at which a financial instrument could be exchanged in an arm's-length transaction between willing parties under no compulsion to act and is best evidenced by a quoted bid price in an active market, if one exists.

The following table presents the Plan's financial instruments carried at fair value in the statements of net assets available for education assistance payments, classified by the fair value hierarchy set out in CICA Handbook Section 3862 *Financial Instruments – Disclosures*:

- i. "Level 1" financial instruments are valued using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- ii. "Level 2" financial instruments are valued using observable inputs other than quoted prices included in Level 1.

Notes to the Financial Statements (continued)

Six months ended April 30, 2012 and 2011 (Unaudited, in thousands of dollars)

Note 9. Fair Value of Financial Instruments (continued)

iii. "Level 3" financial instruments are valued using unobservable inputs for the asset or liability.

Assets Measured at Fair Value as of April 30, 2012

	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 17,919	\$ -	\$ -	\$ 17,919
Short-term Investments	-	8,437	-	8,437
Fixed Income Securities	-	2,075,526	-	2,075,526
Variable Rate Securities	-	-	27,778	27,778
Pooled Equity Funds (EFR Entitlements)	51,831	-	-	51,831
Total Investment Fund	\$ 69,750	\$2,083,963	\$ 27,778	\$2,181,491

Assets Measured at Fair Value as of October 31, 2011

	Level 1	Level 2	Level 3	Total
Cash and Cash Equivalents	\$ 10,432	\$ -	\$ -	\$ 10,432
Short-term Investments	-	6,389	-	6,389
Fixed Income Securities	-	1,913,769	-	1,913,769
Variable Rate Securities	-	-	27,766	27,766
Pooled Equity Funds (EFR Entitlements)	48,920	-	-	48,920
Total Investment Fund	\$ 59,352	\$1,920,158	\$ 27,766	\$2,007,276

For the six-month period ended April 30, 2012 and year ended October 31, 2011, there were no transfers between Levels 1, 2, or 3.

The Plan's financial instruments classified as Level 3 represent the Plan's investment in Equity Linked Notes, which are principal protected by a major Canadian bank (DBRS rating "AA"). Equity Linked Notes are hybrid securities comprised of a bond and an option. The price of the variable rate securities are based on external pricing models provided from third party brokers. These valuations are derived from information on similar publicly traded bonds and options using standard pricing methodology. Such techniques include assumptions related to the assessment and quantification of market, credit, liquidity and currency risks referred to in Note 5. There are no reasonable alternative assumptions.

Level 3 – Variable Rate Securities

	April 30, 2012	October 31, 2011
Opening Balance	\$ 27,766	\$ 134,584
Sales	47	(101,054)
Change in Unrealized Gains/Losses	(35)	(5,764)
Closing Balance	\$ 27,778	\$ 27,766

Government Grants

(Appendix I to Schedule I)

Statement of Investment Portfolio

As at April 30, 2012 (in thousands of dollars)

Security	Par Value (\$)	Fair Value (\$)	Average Cost (\$)
